

MISTRIAL WILL BE ASKED IN HALL-MILLS HEARING

Mystery Letter Basis of Request; Defense Rests as State Starts on Rebuttal

SOMERVILLE (N. J.) Nov. 29. (P)—At the end of a day in which the defense rested its case and the State opened rebuttal testimony, Alexander Simpson, special prosecutor in the Hall-Mills case, today announced that he is assembling material on which to base a motion for a mistrial. The prosecutor said that the motion will not be made until the evidence in the trial has been submitted. A mysterious letter, which apparently followed a circuitous route about the courtroom, brought the announcement of the prospective effort to have a mistrial declared. It was reported that the letter did not contain assertions involving the defendants or their representatives.

The letter was delivered by Simpson to Justice Parker and Judge Cleary. The prosecutor got it from John J. Underwood, inspector of the Jersey City police department, who, in turn, received it from Harry Walsh, one of his captains. Judge Cleary, an attorney of counsel, although he refused to discuss the contents of the letter, said that it had been returned to the special prosecutor.

JURORS ASLEEP

Simpson, last week indicated that an effort might be made to have a mistrial declared when he procured affidavits from newspaper men that certain members of the jury had been seen "nodding and apparently asleep."

Mrs. Frances Stevens Hall, resuming the stand today, proceeded calmly to the end of her cross-examination by the State's attorney. The examination over a period of a few minutes more than two hours. She said today that she is convinced of her husband's regard for her. John V. McCarren, attorney for the defense, said that there was an attachment for Mrs. Eleanor R. Mills of which she did not know.

The extended cross-examination was continued as the State construed as inadequate spreading of an alarm for the missing minister by Mrs. Hall, the day after he left his home for the last time.

TOOK "NECESSARY STEPS"

The prosecution asked again and again as to steps taken in the Hall household to ascertain the whereabouts of Rev. Edward W. Hall. Mrs. Hall replied in even tones that she had taken what she thought were necessary steps.

The witness also emphasized that the body of her husband was not taken to the Hall home, the widow replying each time that she had asked that the body be returned to the house, but that John V. McCarren, attorney for the defense, said that it did not go against it.

The witness said that she never saw the love letters of Mrs. Mills to her husband, nor those of the minister to the choir singer. She said that she was not told that at her minister's advice, she did not read the papers after her husband's death.

The Prosecutor's plan of cross-examination involved many repetition. He asked virtually the same questions several times. Justice Parker on one occasion checking the line of questioning with the statement, "You have been over that, Mr. Simpson."

DENIES COMPLICITY

Mrs. Hall again flatly denied any connection with the crime on which she and her brother, Henry W. Mills, were accused. Her "no" was as emphatic as she replied to questions if she had gone to Mrs. Hausey's Lane, where her husband and Mrs. Mills were slain, had known of any wrongdoing between the two, or had seen Mrs. Mills shot down.

After Mrs. Hall, Mrs. Theodore Bonner and Mrs. Frances Stevens, sisters of Mr. Hall, went to the witness stand, Mrs. Hall, who had been seen by the defense, had not returned home Friday, after leaving early Thursday evening.

Both said the defendant was absent and neither saw any scratch on her face as has been testified to by State's witness.

The defense was unsuccessful in getting into the witness stand from the sisters that both of them and their mother, until her death, were warm friends of Mrs. Hall. Mrs. Bonner was permitted to deny that Mrs. Hall, while accompanying her mother, had a visit to Europe last year, had said anything about hoping Mrs. Jane Gibson was dead and that the only mistake she made was in sending garments to be dyed after the shooting. An effort of the defense to get into the testimony that Mrs. Hall's sister did not see their brother's body failed.

Other witnesses today included

MRS. HALL, IRON PRIDE BROKEN, ADMITS HUSBAND FOOLDED HER

BY GRACE ROBINSON

SOMERVILLE, Nov. 29. (Exclusive)—When she stepped again to the witness stand at her trial for murder this morning, Mrs. Frances Stevens Hall was again the proud aristocrat fighting to preserve her illusions about a husband the world knows wronged her cruelly. Before the ordeal was over the widow, after four years of stubborn denial, had admitted grudgingly to the jury that her beloved husband had concealed something from her.

Special Prosecutor Simpson hammered hard at her before he drew forth this concession.

"You mean he has no suspicions or enough to believe that there might be any kind of attachment between your husband and Mrs. Mills until the time of the murder, when these letters were found?"

"I had absolutely no such thought," said Mrs. Hall, in her interview. "I have read to you that you did not even believe it then, after the letters were found?"

"I am not sure of it now." "You don't believe it now?" "I am not sure of it."

"That is your opinion, is it not? You say it now, after having heard these letters read? There is nothing wrong there was nothing wrong between your husband and Mrs. Mills, when hearing all this evidence?"

"After hearing all this evidence there must have been something going on," said Mrs. Hall, weakly. "That is all. Mrs. Hall weakened for the first time after her four troublous years. She had heard the story of the slain woman's friends tell the jury that the choir singer and the pastor planned to slope, that they were in love, in over two years that the reverend would rather die than anything happen to Eleanor."

She had heard her husband's reputation of her, in his own words, in his own handwriting—when his letters to Mrs. Mills were read to the State and over the objection of the defense, were admitted.

Discussions were pointed out in the statement and the testimony of the witnesses in the present trial. The day closed with the testimony of the defense expert, August Hartman, who was fishing at Lavallette the night of the killing. Statements made by Art Applegate, Theodore Melling and Enoch T. Vancamp, at Toms River in September, were produced by the State and over the objection of the defense, were admitted.

Discussions were pointed out in the statement and the testimony of the witnesses in the present trial. The day closed with the testimony of the defense expert, August Hartman, who was fishing at Lavallette the night of the killing. Statements made by Art Applegate, Theodore Melling and Enoch T. Vancamp, at Toms River in September, were produced by the State and over the objection of the defense, were admitted.

Discussions were pointed out in the statement and the testimony of the witnesses in the present trial.

The "six-pound blue" caught by Arthur Applegate had figured prominently in the trial. Henry Stevens, testifying for the defense, said that the "six-pound blue" was not an entry in the record of September 14, 1922, was written with greater care than the rest of the entries in the diary and that the negotiations under the date, the day of the slaying, containing four lines were written with three different pencils.

GIVEN SUPPORT

The "six-pound blue" caught by Arthur Applegate had figured prominently in the trial. Henry Stevens, testifying for the defense, said that the "six-pound blue" was not an entry in the record of September 14, 1922, was written with greater care than the rest of the entries in the diary and that the negotiations under the date, the day of the slaying, containing four lines were written with three different pencils.

Mr. Hall again repeated the statement she made during her direct testimony that she had been over a statement which she had made to Mr. Hall on Sept. 23, 1922, to Assistant Prosecutor Toolan. Simpson asked who were over it with her and she replied, "Mr. Pfeiffer," who was her counsel four years ago and who was associated with the defense in his claim.

Re-examination of the handwriting experts went over until to-morrow.

The State will offer rebuttal testimony from twenty-five witnesses, it is estimated, and the defense, of tomorrow may be given over to completing the testimony in the case.

Time to be allotted for summation and determination of the judge's charge can be completed and the case given to the jury Wednesday.

It seemed certain tonight that the jury would be permitted to retire to consider the verdict after the State motion for a mistrial is denied by Thursday.

Mr. Hall wore the same black coat and had making up his costume when he was tried. His coat was lined with a white collar added to her black dress and dark gray gloves.

NOT SUSPICIOUS

The first question asked by Simpson was as to whether the witness had ever spent a summer vacation with her husband at Manhattan or New Jersey, or some resort. She answered that she had not.

"You say you saw nothing suspicious in the conduct of your husband and Mrs. Mills?" continued Mr. Hall.

"No."

"Where did you telephone Mr. Hall's sister first?"

"From a drug store."

"A public telephone booth?"

"Yes."

"Did you tell Mr. Toolan, or anyone else, they must have been killed?"

"No."

"You didn't say to Mr. Mills, 'No, they've been murdered or they'd come home?'"

"No."

"Where did you telephone Mr. Hall's sister first?"

"From a drug store."

"A public telephone booth?"

"Yes."

"Did you tell Mr. Toolan, or anyone else, they must have been killed?"

"No."

"You say nothing suspicious in the conduct of your husband and Mrs. Mills?" continued Mr. Hall.

"No."

"You saw them in church, and you never saw anything suspicious, although you did see a camera in this connection?"

Mr. Hall said the camera was in his line of sight, and to be plainly seen. She had the photographer who held the camera ejected Saturday, by his efforts to get him to leave.

"Did you have any talk or conference with Judge Applegate?"

"I don't think I did," replied Mrs. Hall.

"Did you have any talk with Mr. Hall's use of the word 'casualty' in telephoning to the police on the morning after her husband disappeared?"

Defense counsel objected and Justice Parker ruled there was no impropriety in the question.

"Don't you remember any asking the question?"

"Yes, I do," said Mrs. Hall.

"Did you have any talk with Mr. Hall's use of the word 'casualty' in telephoning to the police on the morning after her husband disappeared?"

OIL DEFENSE LOSSES RULING

(Continued from First Page)

The recess tonight, identified a press exhibit as an expense account covering a trip by Fall from Washington to El Paso, Tex., Calexico, Cal., and Three Rivers, N. M., between January 20, 1921, and January 29, 1922. Previous testimony from the Senate record had established the \$100,000 cash transaction as having occurred in the Wardman Park Hotel on January 20, 1921, and had identified Three Rivers as the postoffice address of Fall's New Mexico ranch.

The Fall note went before the Senate without the signature which Doheny had several times informed the Senate committee had been torn off and given to his wife so as to avoid embarrassment to Fall in the event of his own death. He explained to the Senate investigators that he thought Fall might be unable to meet the demand note if it were unexpectedly presented for collection by the Senate committee's attorney in the event of death.

WITNESS CALLED

After reading Doheny's Senate testimony, the government called three witnesses to buttress its case. Ernest Hill, secretary of the Senate committee, was called to identify Fall's note, George Young, manager of the Doheny & Co., New York bankers, told of the withdrawal of the \$100,000 by Edward L. Doheny, Jr., on November 12. Col. New York banker, told of the money in the safe in which it journeyed to Washington.

Doheny will resume his testimony tomorrow, after which Assistant Secretary of State Frank B. Kellogg, Doheny's lawyer, will be called for questioning as to the negotiations which culminated in the Hill-Hill lease and the correlated Pearl Harbor (Hawaii) naval stores storage facilities contract with the Pan American Petroleum Company.

In an effort to speed up the case, counsel have agreed to a session tomorrow night. If the trial does not work a hardship on the jurors, counsel or court, the practice will be continued.

DAVIS LEAVES TO TESTIFY FOR DODNEY

Chief Deputy District Attorney Davis left Los Angeles yesterday for Washington, where he will testify for the defense in the Fall-Doheny oil case. It is not known at the present time the nature of his testimony could be obtained at the District Attorney's office, although it was rumored that Mr. Davis' sister had at one time been in the employ of Edward L. Doheny.

LAND LAW CASE MORE PUZZLING

Mexican Official Declares Code Accepted

Oil Companies Fail to Give Out Confirmations

Seeming Effort to Perplex Washington Made

MEXICO CITY, Nov. 29. (AP)—Foreign Minister Seans today issued a statement in which he declared that Mexico's land and petroleum laws, which have met with protest from the United States, are being enforced without difficulty and only a few of the large oil companies have not yet announced their intention to comply with them.

"In spite of our efforts to keep the oil companies from violating the land and petroleum law, the regulations are being enforced without difficulty and its application is an accomplished fact," Seans said.

Oil companies, American, British, French and others, have taken steps to comply and only a few have not yet announced their intention to do so before the end of the year.

STATEMENT PUZZLING

This statement had only served to puzzle many observers, who believed that the oil companies had publicly admitted acceptance of the law.

Apparently influences are being exerted to keep the Mexican oil companies from complying with the law, as the oil companies have not yet accepted the Coolidge administration's measure.

There was no indication, however, of Socialist ideals in Mr. Wilson's dealing with the Mexican situation, concludes the paper, and "this difficulty, falsehood and hypocrisy is what irritates the Mexican."

CLOSE ASSOCIATES

DENT SOCIALIST AIDS

WASHINGTON, Nov. 29. (AP)—Persons remain in Washington who were in the confidence of the late President Wilson during his long negotiations over the Mexican tangle. Moreover, Mr. Wilson conducted most of his proceedings personally and without consulting subordinates, in order to know what was going on, there is none who believes the former President ever considered going to Mexico to establish Socialism. That is to say, Wilson declared himself the real author of Article 27, against which the Coolidge administration is making representations.

There was no indication, however, of Socialist ideals in Mr. Wilson's dealing with the Mexican situation, concludes the paper, and "this difficulty, falsehood and hypocrisy is what irritates the Mexican."

WASHINGON D.C.

EDITORIAL DISCLOSED

PHILADELPHIA, Nov. 29. (AP)—It is now known that the oil companies involved in the Mexican tangle are the principal interests involved—the oil owners themselves have refused or avoided public declarations, that the important American oil companies have yet to accept the law. All of the foremost British and Dutch companies have, according to apparently reliable information. But this they have refused to do.

ASSERT ACCEPTANCE

The newspaper says that this "acceptance" disproves prolonged foreign arguments (by inference from the Department of State at Washington) that the oil companies are not the principal interests involved in the Mexican tangle.

It is the opinion of the paper that the oil companies would not accept anything prejudicial to their rights.

All the oil companies of other countries would follow the British example.

League Gathers Evidence in Butler-Walsh Fight

Senator Reed Informed Outlay "Staggering"

BOSTON, Nov. 29. (AP)—Stenographers and clerks today pushed forward a compilation of the Republican State Committee in the recent election in which Senator Butler was defeated by David L. Walsh, to enable general counsel for the Liberal Civic League to lay the facts before the United States Senate Campaign Investigation Committee within ten days.

Chairman James A. Reed today telephoned Conrad W. Crooker, general counsel for the Liberal Civic League, that he will lay the matter before the Senate Committee on Organization when he returns to Washington about December 8. Mr. Crooker had informed Senator Reed that the expenditure appeared "staggering" and that the committee had incurred expenses of \$25,789.

Mr. Crooker tonight said that although his stenographers had worked all day copying the records of the committee, which covered fifty-five pages, it will require all of tomorrow to arrive at a definite total and possibly longer.

His estimate of the State committee's total expenditures did not cover the whole. Mr. Crooker said tonight, some organizations, such as the Women's Republican Club of Massachusetts, and the Massachusetts State Club had yet to file their returns.

Chairman Francis Prentiss of the Republican State Committee evidently had no alarm over Mr. Crooker's action. He said that the occasion on which expenditures have not shown an increase over those of the previous campaign. He said that the total expenditure, although they were not tabulated at the time, was \$150,000, or about \$20,000 less than two years ago. Harris M. Richmond of Kingman, treasurer of the committee, said \$100,000 when the reports came in.

Senator Butler's personal return showed that he was well within the \$10,000 allowed by law.

With the strength of the Republicans and Democrats almost equally divided, it was the result of the November elections, the vote of Senator Butler, which caused the Senate to reorganize when the time came to reorganize the Senate.

According to Senator attending the meeting, the occasion was purely a social one and no record of the meeting was taken. Those attending were Senators Curtis and Capper of Kansas, Gov. West Virginia; Shortridge, Indiana; Connelley, Colorado; Connelley, Michigan; and Senator from Vermont; Bickett, Kentucky; Gooding, Idaho, and Stewart, who was elected early this month to fill out the term of Senator Cushing of Vermont.

Senator Shipstead suggested that the Treasury surplus be used in building public buildings rather than in tax reduction. He reminded the Friends of the Poor that the Federal government is now paying more than \$20,000,000 annually in rents for public buildings and that it would be good economy to reduce this great expenditure and set aside \$20,000,000 more to be paid out annually by the government in building rents.

Senator Shipstead asked the President to investigate reports that more selling of cotton was one of the contributing causes for lowered prices for that commodity.

General Motors Company Takes \$100,000,000 Policy for Benefit of Workers

NEW YORK, Nov. 29. (AP)—Group life-insurance exceeding \$100,000,000 has been taken out by General Motors Corporation with the Metropolitan Life Insurance Company for more than 100,000 employees who have been on the pay roll three months or longer. General Motors announced today. The policy covers each worker for \$10,000 without medical examination. All new employees will become eligible.

The plan is unique, both employees and corporation sharing the cost but in order to get the plan installed promptly, Mr. Sloan stated.

General Motors has 100,000 employees. So is the coal in Washington, British Columbia and Alaska, Chinese and British coal is excellent. So is the coal in Washington, British Columbia and Alaska, Chinese and British coal is excellent.

"The output of a blast furnace

making 500 tons a day," he said,

"could be just right back in the ground." Last year, the Pacific Coast miners made 130,000 tons of cast iron pressure pipe, half of it in Southern California. Such pipe is employed for water mains, chiefly, and a few tons are required by every new subdivision

in making pig iron here.

Where will the industry find its best customers?" I asked one of the experts.

Callahan and DeHate Clash Tonight in Vernon Arena

MUSHY FAVERED OVER OPPONENT

Ring Worms Like Paul as Short Ender

Boxers May Get First Kayo in Mix-up

Lamar Tackles Langford in Semi-Wind-up

There are two tough customers in the welterweight division. One of them is Joe Dundee. The other is Paul De Hate. Mushi Callahan meets De Hate at Vernon tonight and he will probably be called upon to fight Dundee before he gets a shot at Paul. Lamar and the lightweight champion.

Some say that the fast-moving Callahan will step all over De Hate, but you know that Dundee is the next party to figure in a fistful upset. Any fighter who is in condition and can throw haymakers for ten rounds as De Hate does is a dangerous opponent for any fighter in the world.

Neither Callahan nor De Hate has ever been knocked out. Also neither has a bone off his feet.

In a local ring Silver knocked Callahan down in San Francisco and Alf Mancini knocked De Hate down in New York. So that even more.

De Hate's game is to make an opponent fight him just as he did Jim Duffy, Silver and Paul Dempsey.

Duffy received the referee's decision over De Hate chiefly because he threw more blows, but Duffy was in distress

MUSHY CALLAHAN

STANFORD WARRIORS RESUME PRACTICE FOR ALABAMA GAME

STANFORD UNIVERSITY, Nov. 29. (AP)—Stanford's varsity football squad resumed practice today in preparation for the post-season game with Alabama at Pasadena New Year's Day. The forty-eight players have been taking a vacation from training since the contest with California last week.

Coach "Pop" Warner will not return home from witnessing the Alabama-Georgia and Army-Navy games until next Monday. Assistant Coaches Thornhill and Winterburn will guide the team in his absence.

Final examinations are scheduled for December 14 to 17 and football practice will continue until the 18th when the Moleskins will give way to books for a week.

of Magnesia

Offer instead of soda take a Phillips' Milk of Magnesia® any time for indigestion, acid, gassy stomach, and will come instantly.

Better Than Soda
Try a 25¢ Bottle
Instead upon Phillips' Milk of Magnesia® has been produced by physicians because it takes three times as much of the stomach as a saturated solution of bicarbonate of soda, the stomach sweet and free from gas. Besides, it non-

troubles acid fermentations in the bowels and gently urges this souring waste from the system without purging. It is far more pleasant to take than soda.

EMPRESS CHARLOTTE
ILL WITH RHEUMATISM

BRUSSELS, Nov. 29. (AP)—The Empress Charlotte, who is 86 years of age, is suffering with severe rheumatic pains. Her condition, however, is not considered alarming.

COUNTIES SHARE IN GASOLINE TAX

Los Angeles Receives Largest Part of Levy

Total of \$338,742 Given to San Francisco

Distribution Made on Basis of Auto Registration

SACRAMENTO, Nov. 29. (AP)—Motor vehicle fuel tax apportionments to California counties for the six months ending September 30, last, were announced today by State Controller Ray L. Riley. Of the \$4,685,770 distributed among the fifty-eight counties on the basis of motor vehicle registration, Los Angeles county, with a registration of 621,110 cars, received the lion's share of \$1,706,354. San Francisco, with a registration of 121,261, received \$338,742, and Alameda, with 115,847 cars registered, \$318,264. Amounts apportioned to other counties included:

Contra Costa, \$325,400; Fresno, \$146,062; Humboldt, \$35,277; Imperial, \$55,274; Kern, \$88,632; Kings, \$23,742; Lassen, \$10,071; Marin, \$10,252; Marin, \$9,000; Mendocino, \$18,258; Merced, \$20,200; Monterey, \$84,150; Orange, \$103,069; Plumas, \$4991; Riverside, \$64,731; San Benito, \$10,143; San Bernardino, \$19,156; San Diego, \$157,900; San Joaquin, \$60,258; San Luis Obispo, \$24,652; San Mateo, \$46,705; Santa Clara, \$123,427; Santa Cruz, \$59,025; Shasta, \$11,120; San Luis Obispo, \$10,200; Stanislaus, \$60,247; Tehama, \$12,873; Tulare, \$75,180; Tuolumne, \$7821; Ventura, \$41,222; and Yuba, \$11,988.

The total collected under the 3 cent a gallon motor vehicle fuel law during the year ending September 30, was \$16,655,150, half of which went to the State and half to the counties.

Flying Little
More Perilous
Than Walking

HARTFORD (CT), Nov. 29. (AP)—Hazards of regularly established and licensed commercial aviation are little greater than those which beset pedestrians or the occupants of automobiles. This was made by the Travelers' Insurance Company has demonstrated. Basing its action on these surveys, the company announced today its decision to liberalize its rates and to impose upon holders of all but a few of the restricted class accident policies.

Effective December 1, next, the basic insurance will be \$100, with an additional premium cost of approximately 20 per cent of the company's accident policies for any loss caused by any hazard of aviation while the insured is riding as a passenger in a licensed aircraft or dirigible operated by a licensed pilot upon a regular passenger route between definitely established airports.

The actuarial survey, Vice-President Page said, was instigated primarily because of inquiries from policy-holders who intended to visit Europe and travel there on the regularly established lines.

Because S.S.S. does build red blood-cells, it clears the system and makes those so-called skin disorders impossible to exist. S.S.S. contains only pure vegetable medicinal ingredients. It is also a remarkable builder of firm flesh which is also important to beauty. It will fill out your skin, cheeks, the bones of health in your cheeks, and the sparkle of your eyes. In 1926 S.S.S. has been beautifying complexions and giving women physical charm. That is why S.S.S. is accepted as the greatest of all blood cleansers and body builders. S.S.S. is sold at all good drug stores. The larger size bottle is more economical. Start taking S.S.S. today. Its marvelous benefits will amaze you!—Advertisement.

Cat Living in
\$100-a-Month
Home Expires

HORNELL (N. Y.), Nov. 29. (AP)—Jack, an 18-year-old cat, who occupied a \$100-a-month apartment all alone, has gone where all good cats go. Jack died yesterday and his mortal remains were consigned for burial today in a dog's cemetery maintained by a lover of animals who refuses to charge owners of pets any money for lots in his privately-owned cemetery. This graveyard is rated here as the largest of its kind in the world.

Jack belonged to Frank L. Myers, who is not at all a wealthy man but is a lover of animals, particularly of cats. Two years ago, Myers closed his downtown place of business and moved to a large animal family maintained by a lover of animals who refuses to charge owners of pets any money for lots in his privately-owned cemetery. This graveyard is rated here as the largest of its kind in the world.

NEWS OF SOUTHERN COUNTIES

GIRL RECEIVES DEATH THREAT

Attempt to Frighten Accuser of Negro

Young Woman Charges Prisoner With Assault

Note Demands She Retract Court Testimony

PASADENA, Nov. 29.—Receipt of a death threat by Miss Blanch Adams, 19-year-old Pasadena telephone operator, which attempts to influence her testimony against Madison Johnson, negro, who is now being held in the County Jail on a charge of attacking the girls, was revealed today by local detectives.

The letter, unsigned, threatens Miss Adams' life unless she testifies that Johnson is not the man she attempted to shoot at her 14th inst. I say: "If you do not swear this is not the man, we will put a bullet through you."

Johnson is now awaiting trial on the attack charges and also on a robbery charge in the Superior Court of Los Angeles, having been held to answer under \$5000 bail after a preliminary hearing held yesterday before Justice J. Russell Morton.

In the preliminary hearing, Miss Adams was confronted with the negro and asked if he was the man who assaulted her. She replied: "He is near like him as anyone could be."

The asserted attack occurred at night as Miss Adams was entering her front door in Elysian Park. After coming home from work on the street car. A negro followed her, struck her on the head with a piece of pipe and choked her before the eyes of neighbors frightened him away.

Johnson, who, police say, is an ex-convict, was arrested at his room at 1030 Kirkwood avenue, two days later. Miss Adams' lawyer, however, denied the case against him would be without substantial foundation.

One Dead, Seven Injured, Result of Accidents

BAKERSFIELD, Nov. 29.—Mrs. Grant Pearson, 22-year-old Los Angeles matron, was instantly killed and seven persons were seriously injured in automobile accidents occurring on the State highway south of Bakersfield over the week-end.

The injuries are: Grant Pearson, Los Angeles, lost in injuries; L. E. Westcott, Los Angeles, cuts and bruises. Mrs. E. W. Pearson, Los Angeles, bruises and severe shock. Milton Sabriski, concussion of brain, possible fracture of skull, cut and abrasions. Los Angeles, bruises and cuts. Alex Mander, Kern county, concussion of brain, lacerations.

Mrs. Pearson was killed and her husband, mother-in-law and son, E. W. Westcott, were seriously injured when their machine skidded on the State highway twenty miles south of Bakersfield, and overturned. The accident was due to a fall of the work or county road crew, all of whom were bad drivers, according to Bakersfield police and ambulances.

Sabriski, Golden and Olmsted were injured a few minutes later at almost the same place on the State highway, when their machine plunged into a heavy truck driven by a Japanese.

Saturday afternoon while walking along the highway south of here, Alex Mander, Bakersfield youth, was struck by an automobile and hurled unconscious into a ditch. At the hospital it was found that he was suffering from temporary concussion of the brain and severe lacerations on his face and head.

ORCHARDIST DIES

Pioneer in Fruit Culture Dead After Short Illness

POMONA, Nov. 29.—Death claimed Daniel Burr, 78 years old, a pioneer in fruit culture from his home Sunday evening at 7:30 at his home, 618 Illinois street, after a short illness. Mr. Burr had been a resident of California since 1888 and was one of the first to own orchards and vineyards in the San Joaquin Valley. For several years he operated a fruit-packing house in San Francisco.

He came to Pomona two years ago from Alameda county. Mr. Burr was a direct descendant of Aaron Burr, famous in American history.

The deceased is survived by his wife, three sons, one daughter, ten grandchildren and one great-granddaughter. Besides two sisters, who reside in this city.

Funeral services will be held on the Toda & Revere Chapel Tuesday afternoon at 2:30. Rev. Frank Floyd Beckwith, pastor of the First Baptist Church, will officiate, with interment in Pomona Cemetery.

RAILROAD RESUMES REGULAR SCHEDULE

PORTERVILLE, Nov. 29.—Regular schedule is expected to be resumed tonight over the Southern Pacific branch line between Porterville and Bakersfield, used jointly by the Southern Pacific and the San Joaquin, which suffered a series of washouts through the recent storm. The first break occurred last Wednesday.

The track was reported clear to-day noon and trains are expected to be running as usual tonight over both lines.

Mail and passengers from the south have been brought over the main Southern Pacific line to Gothen for the past several days, these sent over to Porterville from Gothen in a special car.

CANNED HEAT IS NEW CASHIER

GLENDALE, Nov. 29.—O. W. Jorres, formerly cashier of the Seaboard National Bank in Los Angeles, and several others, will be associated with the Bank of America, which has been appointed cashier of the Glendale State Bank, succeeding George E. Farmer, who has been appointed vice-president of the recently organized American National Bank of Glendale. The Bank of America, several months ago purchased the Glendale State Bank.

FAVOR MUNICIPAL COURT

Pasadena Attorneys Sponsor Movement for Improvement in Legal Machinery

PASADENA, Nov. 29.—The question of establishing a municipal court in Pasadena, similar to those in operation in Los Angeles and Long Beach, will come before the Board of City Directors tomorrow, following considerable preliminary promotion of the project here.

BUYS RUM BOAT AT UNCLE SAM'S AUCTION SALE

SAN DIEGO, Nov. 29. (AP)—One of the most picturesque and notorious rum runners in the British Columbia liquor trade was struck by the hammer today when the three-masted Nova Scotian schooner, Marion G. Douglas, was sold at public auction at the West Santa Fe wharf by Keno Williams, United States marshal, for \$7500.

The purchaser of the rum schooner was H. E. Rose of Palm City. He said the craft will be used as a fishing boat. Lloyd's Register of Shipping men say poetic justice in the return of the schooner to the fishing trade, as the craft originally was built for fishing operations out of Halifax for the banks.

Only three persons bid for the schooner. M. K. Kondo, president of the Ocean Liners Company, and Charles M. Williams, son of the master of the schooner, salvagers of the Marion Douglas, filed a suit in admiralty for \$8000 against the rum schooner, following its sale at auction, on September 17.

It is estimated that the total costs against the vessel by the government will not total more than \$5000, so that the schooner may get a profit of \$3000 or \$1200 less than the amount named.

The asserted attack occurred at night as Miss Adams was entering her front door in Elysian Park. After coming home from work on the street car. A negro followed her, struck her on the head with a piece of pipe and choked her before the eyes of neighbors frightened him away.

Johnson, who, police say, is an ex-convict, was arrested at his room at 1030 Kirkwood avenue, two days later. Miss Adams' lawyer, however, denied the case against him would be without substantial foundation.

STOCKMEN HAPPY

Heavy Rains Bring Abundance of Green Feed

BAKERSFIELD, Nov. 29.—Kern county stockmen are jubilant over prospects for a successful season as a result of the heavy rains of last week in the grazing areas of the county. Green feed is certain to be abundant this year.

On the Kern, the Oildale and Greenhorn Mountain areas benefit, according to C. H. Likely, in charge of the United States Weather Bureau at Glendale, where rains are expected to continue.

The rains may get a profit of \$6000, or \$1200 less than the amount named.

The Marion Douglas was picked up at 10:30 a.m. Monday by the Bergen, Los Angeles, having been held to answer under \$5000 bail after a preliminary hearing held yesterday before Justice J. Russell Morton.

In the preliminary hearing, Miss Adams was confronted with the negro and asked if he was the man who assaulted her. She replied: "He is near like him as anyone could be."

The asserted attack occurred at night as Miss Adams was entering her front door in Elysian Park. After coming home from work on the street car. A negro followed her, struck her on the head with a piece of pipe and choked her before the eyes of neighbors frightened him away.

FACTS about DIGEST Homes

A There are 4,751,987 readers of The Literary Digest divided as follows:

2,415,086 Women and Girls.
2,336,901 Men and Boys.

The number of readers per copy is determined by a direct statement from Digest subscribers in which they check the number of men and women, and boys and girls in their homes who read The Digest.

B 72% of all The Digest circulation is delivered to the homes of Executives in business and in the professions.

C The Digest is credited with covering 39.8% of all the families in the United States with \$10,000 incomes and over; 19% of all families with incomes of from \$5,000 to \$10,000; and 661,755 families with incomes from \$2,000 to \$5,000.

D There are 258,079 Wholesale and Retail Dealers reading The Digest, among them, for example:

43,644 Building Material Dealers and Contractors.
83,047 Automotive Dealers.
63,342 Clothing, Dry Goods, House Equipment Dealers.
44,435 Grocery, Meat, Fruit, Confectionery and Milk Dealers.
19,235 Hardware, Machinery and Supply Houses.

THE telephone home is not only the first to buy advertised goods—it is also the most persistent and the largest buyer. The 9,809,063 telephone homes of this country buy two thirds of the advertised products.

Whether you are selling a steamship or railroad ticket, a vacuum cleaner or an automobile, a radio or a breakfast food, your task will be far easier and more profitable if a large part of your customers are from the established and alert homes to whom the telephone has become indispensable.

These people are the leaders, the ones who have

at least the minimum comforts of life, who are settled long enough in one place to have an important circle of friends, and whose good word and steady patronage insures your market. Whatever they hear about first, the rest of the community soon learns.

It is hardly surprising—but it is certainly essential to advertisers—to know that no other great magazine in the country, fiction or otherwise, has so many telephone subscribers among its regular readers as The Literary Digest. Through this one medium, you have a direct wire to a million telephone homes.

A Million Telephone Homes in the Digest Circulation of 1,400,000

WE are not stating these astonishing figures carelessly. They are based on repeated and careful tests, made over a two year period, and with every safeguard of accuracy and fairness. Complete details of the tests and how they were made are available to anyone on request.

There are certainly many thousands of alert people, regular Digest readers, who live in homes where the telephones are listed under other names—those of relatives or friends. But without counting these, we know that seven out of every ten names on The Digest subscription list are listed in the telephone directories at the same address.

These alert people read The Digest because they take an active interest in the great romance of news and facts from every part of the world. From the affairs of nations to the news of the sporting world, through every activity in science, exploration, art, religion, humor and politics, The Digest re-

ports the intelligent opinion of the world press, opinion on both sides, gathered from more than 5,000 newspapers and periodicals.

We have used only advertising to maintain circulation and to obtain new readers. We employ no canvassers. Our advertising has been directed primarily at the telephone home and we have thus sifted from all the telephone homes the ones who respond to advertising. Our readers would not be readers to-day if they had not proved their responsiveness to printed advertising by responding to our own advertising matter.

The Digest readers are the tested best from the telephone homes—those whose alertness to new suggestions has been established. The advertiser who speaks to them through the pages of The Digest is gaining and maintaining for his product the acceptance and the good will of the most alert and influential section of the telephone market.

One Thousand Tons of Steel and Concrete
(a Coast Record) plus Modern Engineering
are being transformed by

THE HERMANN SAFE COMPANY

into the largest Safe Deposit Vaults on the Pacific Coast

THIS BANK has determined from the beginning, that the vault to be installed should provide, regardless of cost, the maximum measure of protection—equally for the Bank's safe deposit patrons and for its own funds and securities.

This vault is larger and of much heavier construction than the dimensions and weights heretofore regarded as standard, and it includes all the latest improvements recently adopted by the leading banks of New York and large eastern cities.

"Yok Infuse," a wonderful new metal alloy, which resists oxy-acetylene and electric torches, and the new system of "Rivet Grip" Steel Reinforcement completely surround this vault, including three wonderful new time-lock vault doors, and a protective alarm system of the most advanced type.

"Times" Daily Short Story

To LOVE and to HONOR

By OCTAVUS ROY COHEN

IT WAS rather amazing to discover a deep vein of sentimentality in my little George Potter. I had been his friend and attorney for thirty years and had watched the always stout, and once widowske, little man with a good deal of interest. He had come to him in a modest way: a success which would have enabled him to retire from business and travel about the world a bit had he cared to do so. But instead of that, he was content to sit night after night in their cozy living-room; she busy with her sewing or reading; he poring over his very excellent collection of postage stamps.

Looking back over the years of my friendship with Potter, I can see that the streak of romance had probably been there all the time. There was, for instance, a youthful and frantic courtship of the state. Althes Deane—an affair which had skirted

The thing was mighty impressive. Esther in the bridal costume she had worn twenty-five years before and carrying a shower bouquet of bride roses.

the borders of scandal. And just when the forked tongue of gossip began flickering at highest speed—George married her.

That marriage appeared to extinguish George Potter's last spark of romanticism. It never had a chance to be successful, although Althes left him abruptly. George, however, considered it good riddance. Later came the news of Althes's death abroad, and a couple of years later George started paying silent court to Esther again. This, with the added twist—Esther was still a widow—was a difficult situation. It is difficult to be genuinely keen about a prospective marriage in which the principals are both human.

The marriage was a very nice affair. They followed the usual round of entertainments. Then they retired from life. Even his business affairs ran smoothly, and there was no need for me to service a legal way—and while my liking for the man never lagged, we found less and less in common as the years rolled on. I couldn't fancy that they were happy; even if she was, she was not really happy. Not enough sentiment.

That's the way I figured George. And nothing happened to alter my opinion until a few weeks before their twenty-fifth anniversary.

It was then that he waddled into my office, fat little face alight with enthusiasm, and informed me of his unique plans for the silver anniversary. His original idea had been to have the two of them elope, as he outlined the thing, and I confess that I was pretty well dumfounded: not alone because his scheme was richly sentimental and profoundly impossible; but chiefly because it was the stodgy old George Potter who was planning this thing—the very George Potter who had lived a hermit life since his second marriage, and who had shunned social contacts.

According to what George told me, he was doing this for the sake of the sake. "It'll sort of tickle her," he explained. "Women like that sort of thing, you know—and this strikes me as a real idea. You've got to be in on it." And then he turned to me with Esther and I were married." He grinned apishly. "It's just a gesture on my part—sort of sacrifice to please the Old Lady."

I saw that for George: he didn't do things halfway. Like most of the conventional party, he staged a perfect duplication of his marriage to Esther twenty-five years before. There was even the same minister—mighty old Mr. Miller, the deeply venerated who had played "Oh, Promise Me" at the other ceremony. A good many of the original guests were there: most of us pretty gray around the temples. But there was one mighty impressive—Esther in the bride costume she had worn twenty-five years before let out around the hips perhaps a dozen bouquet of bride roses and valley lilies, the bridegroom in pink with bouquets of Killarney roses. Even a ring-bearer. It was worlds of fun and queerly stately, where one might expect the opposite to be absurd.

As for Esther, I never saw her more radiant. She took on an air of genuine beauty. Of course, she would have been less than human and far from female to be failing to respond to this magnificient display of husbandly devotion. George himself was as frightened as he had been on the occasion of their wedding.

Finally, the ceremony was finished and the guests adjourned to the dining-room for the lavish supper which had been prepared by a firm of caterers. George and I were left alone and I went into the room and dropped a hand on his shoulder and congratulated him on the success of his party.

"You really think it was a success?"

"Wonderful! And," jocularly, "you

GRANITE ELEPHANTS HONOR CIRCUS DEAD

CHICAGO, Nov. 29. (AP)—Great granite elephants in the form of a monument were dedicated yesterday by the Showman's League of America as a monument to circus performers and employees who died in the Lincoln Cemetery here. The large monument consisting of a large granite elephant in the center and small ones at each corner of the base, at the place where were buried 45 people who lost their lives in the wreck of a Hagenback-Wallace circus train near Gary, Ind., several years ago.

Spend a few days at Arrowhead Springs and see for yourself the wonders of America's most famous spa.

If you wish health

—Drink at least three pints of pure, natural water every day. This is the advice of doctors.

EVERY DROP of Arrowhead Springs water comes from this world famous Spa, recognized in this country as the *Carlsbad of America*.

And Arrowhead table water is as delicious as that favorite spring of your youth. Taste it and see!

Nature filters it through granite for 15 miles, so "Arrowhead" is the purest mountain spring water known.

Healthful too, because "Arrowhead" contains just the minerals natural to the blood, and in the same proportion. Arrowhead water aids elimination, helps to rid the body of poison and tends to offset the acidity caused by many foods.

Doctors say "drink at least three pints of Arrowhead water each day." That's easy because it tastes so good.

Early in the morning we draw this famous mountain spring water direct to glass-lined tank cars. The same day you have it in your home with the natural flavor unimpaired.

Then drink at least three pints a day. You'll soon find the reason why more than 250,000 people drink this famous table water.

ARROWHEAD SPRINGS

**BOND BUYERS
SHOULD KNOW
ABOUT
"CERTIFIED"
FIRST
MORTGAGES**

"Certified" First Mortgages are the type of Mortgages best suited to the Bond buyer's needs. Like a Bond, the interest is collected by merely clipping the interest coupons. From the viewpoint of security, yield, and convenience, "Certified" First Mortgages command the attention of any Bond buyer.

Investigate these choice "Certified" First Mortgages today. We will gladly send complete details.

Call, write or phone.

**Associated Gas and Electric
System**

Founded in 1852

From a small beginning in 1852 when there were 28 customers, the Associated System has grown until now it serves 360,000 customers in 1,000 communities located in 12 states.

Facts of Growth

1. 70% increase in electric kilowatt-hour sales since 1920.
2. During the same period the gross revenue increased 30%.
3. The number of customers increased 75%.
4. The net revenue increased over 100%.
5. 60,000 new customers added since January 1, 1925.
6. 85% of the net earnings are from the sale of electricity.
7. \$17,000,000 expended for new construction during 1925; \$14,557,000 to be expended during 1926.
8. From 1919 to 1926 the number of Associated investors increased from less than 1,000 to 35,000.
9. Of this number 23,000 are customers.
10. \$16,000,000 of Associated securities purchased by customers and employees during 1925.

The large number of customer investors in the Associated Gas and Electric Company reflects the high regard for the company on the part of those being served.

NEW YORK CURB STOCKS

NEW YORK, Nov. 29. (AP)—Early irregularity in today's curb market was followed by a period of heaviness, with the selling attributed to the marking up of call-money rates to 5 1/2 per cent. Business was reduced, volume, and largely profited.

High-grade oils received fairly good support. Gulf and South Pennsylvania (new) each advancing about a point. In the South American group, Curtis Oil, which was up strong last week, fell back about a point. Gibson Oil was heavily traded in as advancing prices on rumors of a merger with some other company operating in the Panhandle and other Texas fields.

Heavy trading in Swift International, which touched a new high at 25 and then lost all its gain, was one of the outstanding developments in the industrial group. Universal Pictures advanced more than 2 points to within a point of the year's top, but Warner Pictures B dropped nearly 3 points to 33. New low prices were set by the new issues of American Electric Products A, General Necessities and Anglo-Chilean Nitrate.

Singer Manufacturing broke 8 points and sharp increases also took place. At the same time, General Baking A, Goodyear Tire, McGaugh Corporation and St. Regis Paper.

Public Utilities moved within narrow and irregular limits.

The stocks price to net worth was the low and low and close when was the high.

WHAT'S DOING TODAY

DRAW POKER HELD GAME OF CHANCE

Court Asserts Those Who Ante Only Think They Have Best Hand

MANILA, Nov. 29. (P.)—Draw poker is a game of chance and is illegal in the Philippines Islands, the insular Supreme Court ruled today in upholding the conviction of four Filipinos at Cebu who were fined \$25 each for indulging in the game. Says the decision:

"By what is known as bluffing, it often happens that a skillful player with the poorest hand wins the pot from the poor player who has the best hand. But, even so, in making the best hand, the skillful player takes a chance, and with such a chance the players are equally skillful, then draw poker is purely a game of chance and the player with the best hand will win."

The skillful player comes into the pot before the draw he does it upon the theory that he has the best hand or a chance that he will win the pot. When he stays in after the draw he has the best hand at the time of the draw or that it will be improved and that he will have the best hand after the draw."

In a separate analysis, although it is a game more or less of skill, yet, everything else being equal, it is a game of chance."

Port San Luis Transferred to Southland

SAN FRANCISCO, Nov. 29. (Exclusive)—Port San Luis is to be transferred on Wednesday from the San Francisco to the Los Angeles customs district. The change is made under orders received today from the Treasury Department at Washington, D. C., in view of economy and efficiency. Port San Luis is in the southern judicial district and the transfer will come during the year.

The boundary line between the southern and northern customs districts will be the north line of San Luis Obispo county, which also divides the northern and southern port districts of California.

The change was recommended to Washington authorities some weeks ago at a conference of Treasury Department officials held in Los Angeles.

Attended by Col. J. C. Hamilton of San Francisco. The millions of gallons of petroleum and its products, heretofore credited to the port of San Francisco, will now be credited to the list of Los Angeles exports.

Illustrated lectures, scenic motion pictures, Chamber of Commerce, 10 a.m. to 6 p.m.

Boxing—Vernon arena, evening. Musky Callahan vs. Paul De Hale.

Motion Pictures—Broadway Palace, Broadway between Sixth and Seventh—The Black Pirate.

Spain's Geneva World League Office Closing

MADRID, Nov. 29. (P.)—Spain's recent withdrawal from the League of Nations advanced another step today when King Alfonso signed a decree suppressing the Spanish office at Geneva.

Spain's resignation from the League of Nations was handed to the League secretariat on September 11, last.

The withdrawal followed rejection by the League Council of Spain's claim for a permanent seat in that body.

Brazi resigned earlier in the year because she, too, had been denied a permanent seat on the Council.

One Shot in Hollywood Mystery Love Duel

SUITOR HURT IN FILM CITY FRAY

Bullet from Rival Outside of House Finds Mark

One of Pretty Sisters Replies by Firing Pistol Salvo

Girls and Man Hide Under Bed After Lead Volley

A jigsaw puzzle of hot love, hot lead and hot words laboriously was being pieced together by deputy sheriffs yesterday. The love and the words had accounted for last night but the source of the hot lead, in the form of a bullet which plowed its way through the leg of Francis Holliday Hiatt, scion of a wealthy family and sometime film extra, remained undetermined.

At the time the bullet overtook Hiatt—about 2 a.m. yesterday morning—he was walking home from 1126 Olive Drive, West Hollywood, courting beautful Irene Hane, one-time film actress, who lives at the above address with her equally beautful sister, Violà Hane.

Yesterday, he lay on a cot in the County Jail Hospital, cosily smoking a cigarette and referring all inquiries to his legal engagements and led to the two sisters.

REFUSES TO TALK

Harry Brody, alias Fred Harris, a high-voltage swindler who wags with a gun when he isn't in jail on some charge or other, was even more reticent. Deputy Sheriff Elliston and Harry were found him at Hane's home when they rounded out there after the little revolver set off between Hiatt's assailant and Irene Hane, who came to Hiatt's aid. They placed him under arrest.

"You know it all, don't you?" he asked cool and sardonic when Capt. Bright of the homicide squad questioned him. "Well, why ask me fool questions? I've told my story and I'll stick to it."

But deputies working on the case declared they were certain it was Brody, who has a long record of record who precipitated the early morning duel at the Hane home. Both the sisters likewise are certain it was he.

Development of the story told by the two sisters that they were in the front room with Hiatt when Harry drove up and demanded admittance. They refused to let him in and Irene slammed the door in his face. The story went, he said, "I fired a bullet through a lower pane of the glass door, which struck Hiatt in the leg.

Thereupon, Irene, sharp clear through, broke out with a six-shooter she had in the house for emergencies, sent one bullet crashing through the door from the inside and then ran out and fired three times more at the assailant.

HIDE UNDER BED

About that time she forgot her anger and turned her anger on the man and her sister, warning the wounded man to a rear bedroom and locked themselves in. They all sought safety under the bed. About thirty minutes later and then they crawled out. Harris, the swindler, left the house by way of the French door in the meantime. They summoned Dr. Benjamin Blank at the County Jail Hospital, who came out with the deputies and attended to him.

Irene Hane stated that Brody had made her life miserable with his肆虐. She met him some months ago, when he came out with the deputies and attended to him.

SUPERVISORS IN COURT PRELUDE

(Continued from First Page)

The State contends that Supervisor Morris, through J. C. Rockhold, County Surveyor, filed for water rights on the creek for the county and that afterward this permit was canceled and issued again in the name of the Camp McClellan Improvement Association.

PAY ROLL IDENTIFIED

From the questioning of Mr. Morgan and Mr. Valles it appeared that the Supervisors will admit these facts, but interpose the defense that Mr. Rockhold was in error when he obtained the water rights on the Rock Creek for the county, and that it was intended all along that the rights were to be obtained by Camp McClellan. Mr. Hyatt said he did not recall making this defense, but he did remember Supervisors Woodley and McClellan telling him that Mr. Rockhold made a mistake, and that it was thought best to cancel the first permit and issue another.

Mr. Payne's testimony was limited to identifying vouchers and pay-roll records passed through his office. He identified a check for \$800, which went into escrow with the Los Angeles Title Insurance Company.

Mr. Ryan contends that this money was paid for the purchase of the Big Pine Park, which presented to the Supervisors had given \$60,000 to an Allen Jones with which to swing the deal for the park. This is denied by the Supervisors, who point out that the \$800 was used in paying the price set upon the land reduced from a higher figure.

The last hour of court was devoted to the introduction of numerous vouchers, ranging from sums amounting \$100 down to \$2. Most of these were payable to Surveyor Rockhold or for surveying parts supplies. Mr. Ryan said he expected to show that the sum, which totaled \$169, were expended for labor and development on the private park. One letter was introduced showing that there was a sale of cattle between the county and Supervisor Cogswell, Engineer Davidson and F. H. Lipkin which totaled \$52.83. The letter, which was written by Mr. Davidson, explained that it was thought best to use the cattle before it was ruined by winter weather.

The defense attorneys said that their policy concerning introduction of evidence was to present the case in the kind of case presented by the State. They had plenty of documentary evidence of their own. Most of the papers had been graphed and introduced, which speeded up matters.

Mr. Ryan said that today he will proceed with presentation of evidence concerning asserted irregularities in connection with the Big Pine Park.

During the recess of court at noon the Supervisors transacted business in their customary Monday session. Mr. McClellan obtained permission to sign a note to the county for \$1000, the amount being the amount of today's hearing. He said he had thousands to sign, and the trial was forcing him far behind in his work. Supervisor Woodley took the affair calmly, spending most of the day writing the Western Story Magazine. The other Supervisor, lacking interest in the dry procedure, twiddled their thumbs and rubbed their ears.

NURSES' CLUB PLANS TO PRESENT BAZAAR

The annual bazaar of the Los Angeles Nurses' Club will be held at the Nurses' Clubhouse, December 8 and 9. Lunch will be served during the day and a dinner will be served from 6 to 8 o'clock each evening. The Los Angeles Nurses' Club is made up of young graduate nurses. Their first-duty hospital basement club building was built and financed entirely by the nurses of Los Angeles and vicinity.

PROTECT DENIALS

The charges evoked prompt and emphatic denial from three of the men named in the affidavit. Commissioner Dunn termed them not only absurd but "deliberately malicious." He declared that he knows Alley and Alcorn but slightly and that he never has discussed any matter with either of them. Shaw, in fact, he declared, has consistently acted as one of Shaw's defenders, insisting that the Board of Public Works maintained a "charming personality" and that he looked upon the personnel between Shaw and others. His attitude has been, he said, that Shaw is in charge of the department and that as long as he conducts it satisfactorily he should not be blamed in becoming involved in any controversy in which he is a factor.

Similar statements were forthcoming from Alley and Alcorn. Both declared that the two conspirators intended to be left in charge to them, should be laid at the doors of the City Engineer. The four men who filed the affidavit, they declared, have been nominated to the Board of Directors by vote of the board of directors. They have been found repeatedly, both Alley and Alcorn said, prying through the records of the association, which had always been a distinguishing factor.

Both stated that they know of no plot and that they do not know Mr. Gadd except by name. Alley, however, said he sent a letter to Mayor Gadd, demanding that Shaw be removed, but this he did, not as a representative of the association, but as an individual and an engineer who had become "disgusted with the conduct of business shown by Shaw." They laid the entire affair to the City Engineer.

Gadd could not be reached last night for a statement.

CITY ACCUSED IN EDISON SUIT

(Continued from First Page)
is merely a "stand-by" plant to take care of a possible breakdown of the Edison system. He said:

"The Power Bureau has launched plans for the construction and operation of a steam stand-by plant because only in this way can it assure its 220,000 power and light consumers of reliable and uninterrupted service."

FAILURE CHARGED

"The Edison Company, although obligated by its contract with the city to give reliable power service in the energy it wholesales to the city, has repeatedly failed to keep its part of the agreement. It not only has failed to live up to its contract but is attempting to harass and hinder the Power Bureau in fulfilling its obligations to efficiently serve the homes and industries in Los Angeles."

"The Power Bureau in an official communication to the Chamber of Commerce has indicated its willingness to fully compensate the Edison Company for any incidental losses of electrical sales to which the company might be legally entitled through the operation of its stand-by plant."

"The proposed steam plant is not to be operated to replace energy purchased from the Edison company, but only for the purpose of generating electricity when there is an interruption of the hydroelectric supply from the Edison company."

STUDIO STRIKE ORDER HELD UP

(Continued from First Page)
tion concerning the negotiations is expected to be made from New York from time to time.

HOLLYWOOD GATHERING HEARS STRIKE IS OFF

Announcement that the motion picture studio workers strike scheduled for tomorrow has been called off was made at a meeting of the Central Labor Council in Hollywood High School last night by Cleve Beck, president of the Los Angeles chapter of the Thespians Stage Employees and Motion-Picture Machine Operators of the United States and Canada.

Before an audience of 2000 Beck made the statement that representatives of both sides have reached an agreement in New York, and that this is expected to be signed at any time.

Beck, without all details of the asserted agreement, saying these could not be divulged until after it was signed.

The meeting had been called to discuss the status of the proposed strike.

Throngs Flock to See Feagans Annual Opening

Feagans & Co., jewelers, yesterday conducted their annual opening at their store on West Seventh street. The heads of the business were the recipients of congratulations from thousands of visitors.

The Feagans establishment, rated as one of the most beautiful of jewelry stores, had been especially prepared for the occasion. Windows and display cases had been given new color treatments. The visiting throng included many modestly gowned women, who inspected the new merchandise.

Coincident with the opening, Feagans & Co. announced a new policy of merchandising which contemplates the increase in the normal turnover of merchandise which the company hopes to assure through a policy of limited profit margins.

Trial Date Set for Ship's Mate in Sea Slaying

Details of a fatal struggle between two men gone berserk on the deck of the schooner William H. Smith off the coast of Mexico during a terrific storm early this month, are to be presented in the court of United States Judge McCormick on December 16, next.

H. E. Anderson, first mate of the vessel, and the lone survivor, will give his account of the killing to charges of murder on the high seas of E. Christensen, second mate of the ship. Anderson is held in the Los Angeles County Jail without bond.

FATHER THIN DAUGHTER SLIM

Girl Companion Accuse Poisoning Friend

Two Young Women's Bodies Found by Roadside

Togelene Hastings to Mystery of Death

Finally convinced, he said, his daughter was a victim of suicide, A. E. Lund, 51, Maltese Avenue, father of the two girls found dead at a lonely spot on the high road to Salt Lake City, last night to solve the mystery.

Mr. Lundquist, accompanied by his wife and his mother-in-law, his only son, a few hours ago, he had received word of his daughters' deaths.

The dead girls are Sarah Lund, 16, and Ruth Lund, 14, of the same age, principals in a secret organization that has existed for over two years, letters and a diary were found near the Lundquist girl.

POISON TAKEN

The bodies were found side by side on the highway, an empty road, where the Lundquist girl, a maid, was found dead from the effects of a drug taken by jewelers. Miss Lundquist was employed by a San Francisco jeweler.

Josephine was the mother of a son, a married man, and a daughter of four sisters, Mrs. Lundquist.

"My daughter just had the same name as the Lundquist girls," said the maid, who was found dead in the same place where the Lundquist girl was found.

"The Lundquist girl was the most beautiful girl I ever saw," said the maid.

"She was the prettiest girl I ever saw," said the maid.

"She was the prettiest girl I ever saw," said the maid.

"She was the prettiest girl I ever saw," said the maid.

"She was the prettiest girl I ever saw," said the maid.

FATHER THINKS
DAUGHTER SLAIN

Companion Accused of
Poisoning Friend

Young Women's Bodies
Found by Roadside

Agnes Hastings to Clear
Mystery of Death

only convinced, he said, that his daughter was a victim of murder and not a suicide. A. R. Lundstedt, 51 Mainland avenue, father of one of the two girls found dead yesterday at a lonely spot on the highway near Salt Lake City, last night was solving the mystery in an attempt to end the mystery.

Lundstedt, accompanied by his son and his mother-in-law, left here yesterday evening, a few hours after he received word of his daughter's tragic end.

The two girls are Sarah Lundstedt, 19 years of age, and Ruth Drake, a young girl, principals in a strange situation that has existed for the last two years, letters and a diary kept by Lundstedt's girl indicate.

Poison Taken

The bodies were found side by side on the highway. A. J. Orlin, who examined the autopsies, said the girls died from the effects of a poison taken by jewelers. Miss Drake formerly was employed by a Salt Lake jeweler.

Agnes was the motive for the double murder of his daughter, the two of four sisters, Mr. Lundstedt said.

My daughter just had closed her eyes with the Phillips Rubber Company, he was engaged as a jeweler, and was preparing to go home to make her home with me," he declared. "Letters we recently have received expressed nothing but the deepest sympathy that we make the change, and I am confident that there was no reason for her to end her life."

Tells of Threat

The Drake girl long has had a strong influence over Sarah. She is insanely jealous of her and I am convinced, in my own mind, that she killed her when she did. I am sure that Sarah is to blame. Sarah told me some time ago that she would get Sarah for me, and I was forced to ask her leave our home."

The Lundstedt girl spent her vacation with her parents in Salt Lake City two months ago, bringing her grandmother here for a visit. The latter had extended her stay and had remained here until the time of the tragedy. A downtown jeweler is a tame name for the liquor store.

The family came to California from Salt Lake City about two years ago, making their home in Los Angeles for several months.

The three surviving children, two of whom are married, are Ruby, 19, and Ethel William, and two Devereys.

Chief of Police Joseph E. Burns of Salt Lake City, announced that the "murder and investigation" of a large corps of investigators made no progress.

Access to Poison

The investigators of the tragedy announced also that Miss Drake had access at her place of employment to the brand of poison which caused the girl's death.

The complaints involve officials and land agents of the Canadian Consolidated Engineering Co., liquor dealers, and members of the Utah City council.

Mr. Willebrandt is expected to arrive here tonight to appear before the Federal grand jury.

**Accusation of
Abandonment
Before Court**

Gertrude Wood, girl mother who abandoned her infant son on the night of the 16th inst., appeared before Municipal Judge Ballard for preliminary hearing yesterday. The case was adjourned to November 20.

The baby was left in an automobile in front of the home of Katherine Long, motion-picture actress, at 1807 Laurel Avenue. Later the mother came to the door, when she claimed the infant at a foundlings home.

Attorney Verne Hamilton is defending the mother in the petition that she had given in to temptation to get the baby back as proof she did not deliberately intend to abandon the child.

**Flagship Leads in
Gunnery**

U.S.S. California Makes
Highest Score in Practice
and May Retain Trophy

The U.S.S. California, flagship of the United States battle fleet, leads in entire dreadnaught squadrons in four-range battle practice, according to an announcement yesterday of the score of recently completed gunnery exercises. The U.S.S. Oklahoma, old dreadnaught in the battle fleet, made a close second to the ultra-modern California.

The standing of the dreadnaughts was computed on a comparative basis, as follows: 1. California; 2. Tennessee; 3. Pennsylvania; 4. North Carolina; 5. Indiana; 6. Mississippi; 7. Mississippi; 8. Nevada; 9. Colorado; 10. Arizona; 11. West Virginia; 12. Texas.

Indications are that the California is well on her way to capture the second success consecutive year in battle range gunnery trophy. Fifty per cent of the annual score, however, depends on the gunnery practice to be drawn in March, at Guantanamo Bay, Cuba.

Her annual overhaul at the U.S.S. New York, however, is not due until mid-November. The U.S.S. Arizona, now under overhaul at Puget Sound, will that yard on December 17, when the fleet here will be assembled at the naval ammunition carrier, which arrived here yesterday to discharge several thousand tons of ammunition to the gunnery division. The gunnery exercises will sail tomorrow from Hampton Roads, via San Diego, to Los Angeles, to load fuel for the scouting fleet.

The fleet will be in port all the time, completing machinery overhauls to the round of gunnery exercises before the final round.

**U.S. Commission
TO BE CHAMBER GUEST**

E. B. Merritt, assistant commissioner of Indian Affairs, Department of the Interior, Washington, D. C., will be the guest of honor at a luncheon to be given him next Saturday noon by the Chamber of Commerce. The function will be held in the main dining-room of the chamber building and will be open to members of the organization and their friends. Present Indian agents will be present.

Philippine Reunion

The fourth annual reunion and dinner of the Philippine Society of Los Angeles will be given at 8 p.m. December 11, at the Masonic Club, according to announcement yesterday by William G. and members of the society. The reunion to include all members of their families and friends and Navy officers and their wives.

Following an entertainment, there will be dancing. Reservations may be made by telephoning to Mr. Pigott at 625 South Figueroa street, or C. O. Hagen, 512 Eighth street.

THOUGHT VICTIM OF
STRANGE INFLUENCEEFFORT TO 'GET'
SHAW CHARGED

Engineers Association Group
Says Ouster Planned

Dunn and Gadd Declared in
Deal to Seat Alley

Council Requested to Make
Full Investigation

(Continued from First Page)
street storm drain was set forth in the petition filed yesterday. The petition charged that "the resolution was presented for the purpose of having Maj. John C. Shaw discharged from the office of City Engineer and A. W. Alley appointed in his stead and that Peter R. Gadd and Commissioner A. W. L. Dunn of the Board of Public Works had requested that resolution for the purpose of it."

The resolution of the Board of Public Works followed only a few weeks after City Engineer Shaw testified before the Committee on Public Works committee that \$250,000 of the "expenses" installed by Gadd in the West Adams storm drain were unnecessary and had not been approved or authorized, and the City Council had refused to approve of \$60,000 for the Jefferson-street storm drain being built by Gadd. The feud between Dunn and Contractor Gadd, on the one hand, and City Engineer Shaw, on the other, has been disclosed at the West Adams storm-drain investigation. These disclosures were halted by a court injunction obtained by Gadd's attorneys. The West Adams case now is before the Supreme Court for decision.

"MISLED" INTO SIGNING

F. E. Clove, one of the four men signing the petition filed yesterday, set forth in the petition that among the men who prepared the resolution "he had been misled into signing it" by statements of A. W. Alley that the resolution had a high moral purpose, that it was backed by "large banking interests, and that it was the result of an original resolution in the Board of Public Works, and that it was the result of a demoralized bond market arising from the West Adams storm-drain investigation." The resolution was introduced by the Mayor had offered Mr. A. W. Alley the appointment of City Engineer, but that he declined it.

C. F. Franklin, Allen S. Barker, and two other petitioners set forth that two resolutions were prepared, one recommending that A. W. Alley be made City Engineer and the other recommending that he be made engineer in charge of the Jefferson-street storm drain and that Mr. Alley decided to present the last-named resolution to the Board of Public Works. The petition said that until the resolution was presented "City Engineer Shaw was held in high regard by the men of the engineering division, but that the engineering division had been so greatly harassed by the removal of Mr. Gadd, and that the Mayor had offered Mr. A. W. Alley the appointment of City Engineer, but that he declined it."

C. F. Franklin, Allen S. Barker, and two other petitioners set forth that two resolutions were prepared, one recommending that A. W. Alley be made City Engineer and the other recommending that he be made engineer in charge of the Jefferson-street storm drain and that Mr. Alley decided to present the last-named resolution to the Board of Public Works. The petition said that until the resolution was presented "City Engineer Shaw was held in high regard by the men of the engineering division, but that the engineering division had been so greatly harassed by the removal of Mr. Gadd, and that the Mayor had offered Mr. A. W. Alley the appointment of City Engineer, but that he declined it."

The main purpose of McNabb's visit to the Bay City, it was learned, was to discuss with Mrs. Willebrandt the manner in which complaints against the engineer were received.

The complaints involve officials and land agents of the Canadian Consolidated Engineering Co., liquor dealers, and jewelers of Vancouver. E. C.

Mr. Willebrandt is expected to arrive here tonight to appear before the Federal grand jury.

**Coast Rum
Net Set to
Trap Move**

Additional Arrests Will
be Made in Week Revenue
Officer Predicts

Additional arrests are expected to be made within a week, according to announcement last night of B. H. Hamer, chief of the intelligence unit of the Internal Revenue Service, on his return from San Francisco where he conferred with Federal offices in charge of the government's crusade against rum runners.

Among those at the conference board were U. S. Atty. McNabb of the U. S. Attala, United States Commissioner of Internal Revenue, and U. S. Atty. Hatfield of San Francisco and Alf Oftedal, chief of the intelligence unit of eleven Western states.

The main purpose of McNabb's visit to the Bay City, it was learned, was to discuss with Mrs. Willebrandt the manner in which complaints against the engineer were received.

The complaints involve officials and land agents of the Canadian Consolidated Engineering Co., liquor dealers, and jewelers of Vancouver. E. C.

Mr. Willebrandt is expected to arrive here tonight to appear before the Federal grand jury.

Before Court**

Gertrude Wood, girl mother who abandoned her infant son on the night of the 16th inst., appeared before Municipal Judge Ballard for preliminary hearing yesterday. The case was adjourned to November 20.

The baby was left in an automobile in front of the home of Katherine Long, motion-picture actress, at 1807 Laurel Avenue. Later the mother came to the door, when she claimed the infant at a foundlings home.

Attorney Verne Hamilton is defending the mother in the petition that she had given in to temptation to get the baby back as proof she did not deliberately intend to abandon the child.

**Flagship Leads in
Gunnery**

U.S.S. California Makes
Highest Score in Practice
and May Retain Trophy

The U.S.S. California, flagship of the United States battle fleet, leads in entire dreadnaught squadrons in four-range battle practice, according to an announcement yesterday of the score of recently completed gunnery exercises. The U.S.S. Oklahoma, old dreadnaught in the battle fleet, made a close second to the ultra-modern California.

The standing of the dreadnaughts was computed on a comparative basis, as follows: 1. California; 2. Tennessee; 3. Pennsylvania; 4. North Carolina; 5. Indiana; 6. Mississippi; 7. Mississippi; 8. Nevada; 9. Colorado; 10. Arizona; 11. West Virginia; 12. Texas.

Indications are that the California is well on her way to capture the second success consecutive year in battle range gunnery trophy. Fifty per cent of the annual score, however, depends on the gunnery practice to be drawn in March, at Guantanamo Bay, Cuba.

Her annual overhaul at the U.S.S. New York, however, is not due until mid-November. The U.S.S. Arizona, now under overhaul at Puget Sound, will that yard on December 17, when the fleet here will be assembled at the naval ammunition carrier, which arrived here yesterday to discharge several thousand tons of ammunition to the gunnery division. The gunnery exercises will sail tomorrow from Hampton Roads, via San Diego, to Los Angeles, to load fuel for the scouting fleet.

The fleet will be in port all the time, completing machinery overhauls to the round of gunnery exercises before the final round.

**U.S. Commission
TO BE CHAMBER GUEST**

E. B. Merritt, assistant commissioner of Indian Affairs, Department of the Interior, Washington, D. C., will be the guest of honor at a luncheon to be given him next Saturday noon by the Chamber of Commerce. The function will be held in the main dining-room of the chamber building and will be open to members of the organization and their friends. Present Indian agents will be present.

Philippine Reunion

The fourth annual reunion and dinner of the Philippine Society of Los Angeles will be given at 8 p.m. December 11, at the Masonic Club, according to announcement yesterday by William G.

and members of the society. The reunion to include all members of their families and friends and Navy officers and their wives.

Following an entertainment, there will be dancing. Reservations may be made by telephoning to Mr. Pigott at 625 South Figueroa street, or C. O. Hagen, 512 Eighth street.

To assist property owners in financing the widening of Slauson avenue to eighty feet from Central avenue to Figueroa, the City Council's Finance Committee yesterday recommended that \$50,000 be contributed from general funds toward the \$500,000 estimated cost of the improvement. The appropriation will be made from the public improvement fund. The link between Figueroa street and Central avenue is part of the plan to widen Slauson avenue throughout its length.

**Earns Tour of World
Drawing Celebrities**

Earning his way around the world by drawing charcoal and pen-and-ink sketches of prominent men and women, Alfred Dupont, 22 years-old artist of New York City, is a visitor in Los Angeles. Among those whose features have been placed on canvas and board by the youthful artist since his arrival in the Pacific Coast are Paul Whiteman, Rod La Fonda, Patsy Ruth Miller, Joe Bonano, Ford Sterling, Laura Fante, Gardner James and Benny Leonard.

**Smart Little Jersey Suits, Gifts
for Small Boys, \$5 At Bullock's!**

Members of the family often give the children clothing, for Christmas—and what could be more pleasing for a little boy 3 to 8 than one of these clever jersey suits from Bullock's Store for Boys. Such a dandy little suit for \$5.00.

So-Me-Ons, Glu-Me-Ons

Fetching appliances for so

many different things. A variety of patterns—for children's garments, for sports dresses and designs for art needlework. They are fast colored, 10c to \$2 each.

The trimmings listed are only

a few of the many delightfully used in making Christmas gifts. Many suggestions in the way of completed articles displayed for inspiration and instruction.

Sizes 3 to 8.

LOS ANGELES (Loco Ahng hayl)MEMBER OF THE ASSOCIATED PRESS
The Associated Press is a registered service mark of the American Telephone and Telegraph Company and is used by the Times under license. All news credited to AP or otherwise credited in this paper and also all local news published here within.The Times gives at all times to be accurate in
the news it prints, and it is the desire of the newspaper
to receive any important information of a general
nature from any source. The Times
will render a favor by calling attention of the Edi-
torial Department to the error.CONUNDRUM
Who is the president of Notre Dame
University? Knute Rockne!REVISED CLASSIC
Serenely empty, the dieter will say:
"Fat can not harm me—I have dined to-
day."NOT SHARP, EITHER
It's often a compliment when we call
a man a pinhead. Frequently the people
so designated are nothing but need-
heads.WOULD GIVE IT UP
A European economist says that
Germany needs prohibition. The Germans
can have New York's as far as Tammany
is concerned.ENNUI
The shows which are arranged espe-
cially for "tired business men" seem to aim
primarily to please those who principally
are tired of home.THE ICE MAN
Included in the White House repairs
will be the installation of a new refrigerat-
ing plant. It appears that this business of
keeping cool with Coolidge can not run on
forever.GOOD MEMORY
"Yes, children," said grandma, smil-
ing in happy reminiscence, "there was a
time when every family in our block had
a turkey every Thanksgiving, Christmas
and New Year's."A FALLEN ANGEL
The arrest in New York for bigamy
of one Christian Angel shows that there
is very little to a name, after all. Two
women appear to have been entertaining
an Angel unawares.LIBERTY TO ENSLAVE
"Personal liberty," as advocated by
the wets, means freedom to make one's
self an absolute slave to his most injurious
habits and to insure the enslavement of
millions of other people.COLLEGE BOOZE
Yes, the drinking in colleges is quite
a problem in some places—perhaps one-
tenth as bad as it was ten or twenty years
ago, but not anything like what it was
when most of the dads now holding up
their hands in horror were in school.SHADES OF SULLIVAN!
Gene Tunney criticizes a story of
George Bernard Shaw's because, he says,
Shaw doesn't understand the psychology
of prize fighters. To think that we have
lived to see the day when a champion
heavyweight pugilist knows what psycholo-
gy is!HEAP MUCH TALK
Washington gossips declare that the
Senate will have plenty of material to in-
spire debate when Congress assembles. It
needs no soothsayer to muster this pre-
diction. The Senators would be rich in
debate if there were nothing but the Wash-
ington weather to talk about.EIGHT-HOUR FARMERS
The head of the American Association
of Agriculture is trying to establish
the eight-hour day on the American farm.
This is going to be quite a task. During
the busy season it is bound to be difficult
to keep the rancher in his bed after 5
o'clock has clicked. Running a dairy farm
on an eight-hour schedule would be a teas-
ing business.KNOCKING THE GIRLS
As the result of a series of debates
the male students at Oxford's famous
university have decided that the admission of
girl students was a terrible mistake. The
maiden are carrying off many of the hon-
ors and have demolished many of the tra-
ditions of the institutions. Even the ris-
ing generation of British males do not like
to have their serenity disturbed.TWO OF A KIND
The lady Mayor of Seattle says that
government should be a joint man and
woman affair—the same as the home. But
the Texans wearied of their experiment in
the Governor's office and in other sections
the mixture fails to arouse the enthusiasm
of either sex. Women are thoroughly
competent to hold office, but many folk
feel that they have not materially strength-
ened government by their adventures on
the political field.THE PRICE FIXERS
Edwin T. Meredith of Iowa, former
Secretary of Agriculture, is expected to
be a candidate for the Democratic Presi-
dential nomination. He is now insisting
that the government create a commission
to fix the prices on wheat, cotton, corn,
sugar, butter and wool. If Uncle Sam can
do this, why not have him fix the price on
mittens, moonshines and movie tickets? Let
the Washington politicians determine at
what figure our prunes and pants buttons
shall enter the market. If we are to be
regulated let it be clean down the line.ON CHIMNEYS
It is easier to build two chimneys
than to keep one in fuel," said Benjamin
Franklin. However, Franklin never lived
in California, where even one chimney is
art and a newspaper is fuel.

JUST AS GOOD

We are being informed that nearly

A GLOWING REPORT
Striking proof of what has been
written of late by our students of economics
as to the high standard of living reached
by Americans is contained in the annual
report of Secretary of Commerce Hoover.
It will swell the chests of patriotic Americans
to be assured by the Secretary that during
the last year this country was able
to reach and maintain the highest standard
of living in its history—a standard
which, as he says, is "far above that in
most other countries of the world at this
or any other time."This statement is substantiated in many
ways by the Secretary's findings, particularly
by a comparison of wholesale price
levels of this and former years, by the tremen-
dous business of mail-order houses, by the
great increase in the volume of traffic
handled by the transportation companies and
by the new high records made by our
financial institutions. The only exceptions
to this general rule of national prosperity
during the year were found in the lessened
activities of textile and bituminous coal
industries and in some of the price levels
of agricultural products. These, however,
did not materially affect the status of the
country as a whole, which he reports as
having prospered amazingly.What Secretary Hoover says about our
present standard of living being far above
that of other countries at this or any other
time is suggestive for the reason that
America's wealth often is compared with
that of ancient Greece and Rome at their
highest peaks of prosperity. However, the
Secretary's statement is a safe one, for the
ancients paid little if any attention to the
science of economics, which may be defined
as that of the production, distribution
and consumption of wealth. The slight
development of economic thought in
antiquity was due chiefly to the fact that
war absorbed a great part of the energies
and substance of the people. Agriculture
was rude and manufacturing and commerce
were still in a primitive state. There was,
in fact, real economic progress. But while
America, too, was suffered by
wars, some of its best intelligence, both
nationally and privately, has been bent upon
economic ideals. We have studied
production, distribution and employment as
they never were studied before in any
country, and as a result there has been a
more nearly equal distribution of wealth
and prosperity among the population than
is reported on any page of the history of
foreign nations.We have been regaled by the stories of
Plutarch and other ancient writers telling
how the Roman patricians feasted on night-
ingales' tongues while lying on silk couches,
but little has been said about the
phoenicians and their humble fare of pulse
and herring. The distribution of wealth in
those days was very unequal and, while
the nobleman feasted, the slave starved.
Today in America the workman has as
nourishing and in some respects rich fare
as the millionaire. And this is more true
of California than of many another State.In Los Angeles the tendency toward the
greater increase and general distribution
of wealth is indicated by facts which show
that within the present decade there has
been more general prosperity than ever
was to be found before in this city. For
example, within the past three years the
number of our motor vehicles is reported
to have nearly doubled. Another indication
is seen in the great improvement in housing,
which expresses itself not only archi-
tecturally but in matters of comfort and
luxury. And it is satisfactory to note
that, although this is called an age of ex-
travagance, the reports of the savings
banks wholly contradict the oft-repeated
charge that our people are living beyond
their means.SLOWING 'EM DOWN
The \$1,000,000 rain has fallen and
the farmers are happy. So are the
druggists, cleaners and pressers and likewise
the garage owners, ignition experts and
plumbers. But not all the blessings that fol-
lowed in the wake of the downpour are
of a monetary nature.The significance of the movement lies in
its tendency toward doing away with racial
and religious prejudice, which has cursed
the world since the world was young. Even
a half-century ago such a movement would
hardly have been possible. If the World
War was a great chaser-up of old hatreds
it also has brought about a broader view-
point, and a realization that men are men,
no matter where their race or where they
happen to have been born.In the United States Protestant, Catholic
and Jew are learning to work together
for common ends and learning, too,
that their differences are less important
than their similarities. It is a step for-
ward when Protestants and Catholics join
to come to the aid of Jews on the ground
of a common humanity; it will be a further
step forward when the Jews of Central Europe
learn that not all Christians are their
enemies.NEW LIBERTIES
"Who steals my purse steals trash,"
the poet remarked, but now it appears that
in California, at least, who steals my house
and lot takes something of even less value;
at least, he cannot be punished for it, except
by his own conscience—he has any.The Second District Court of Appeal,
which seems to be awake nights discovering
new things the matter with the State's
antiquated criminal statutes, has just an-
nounced that there is no penalty for depriving
one of real property by trick and device
or for obtaining it under false pretenses.
Redress must be sought in the civil, not in
the criminal courts.Apparently the court is set upon disproving
the oft-made assertion that courts are
biased upon restricting the liberties of the
citizen. In a recent decision the same court
held that it is no crime for a Councilman
to solicit a bribe. Now it has opened up
a new profession, this time to the populace
generally, in which the pickings ought to
be good at least until the Legislature meets
and puts a stop to it.In the case just decided, a Brooklyn
woman had been persuaded by a Deputy
County Attorney (acting ex-officio) that
lot for which she had paid \$1200 in 1910
had had its title so clouded that it would
be to her interest to sell it to him for \$500,
and that if she did not she would lose everything.
These assertions, the jury held at
the trial, were false, and the former official
was found guilty. The appeal court sets
aside the judgment of conviction aside.Of course, the Brooklyn woman has a
remedy in a lawsuit to set the deed aside,
and doubtless she can recover her property
in that way. Real estate cannot be hidden
nor destroyed, and it's difficult to extin-
guish a lawful title to it by any chicanery,
so that it may be that it is unnecessary to
protect it further by a criminal statute.
But it is unlikely, as it was in the case of
the decision on the bribery law, that the
makers of the statutes had any such fine-
spun distinction in view.The decision furnishes cumulative proof
that the Legislature must act promptly to
fix the prices on wheat, cotton, corn,
sugar, butter and wool. If Uncle Sam can
do this, why not have him fix the price on
mittens, moonshines and movie tickets? Let
the Washington politicians determine at
what figure our prunes and pants buttons
shall enter the market. If we are to be
regulated let it be clean down the line.Frankness is the art of admitting that
one prefers jazz to grand opera.

Uncle Sam: "Love Me, Love My Dog"

[Reproduced by George Matthew Adams.]

BURNING OLD HABITS

A movement is under way in New
York of considerable significance as a sign
of the times; the American Christian Fund
for Jewish Relief. In the committee in
charge of the movement Protestants and
Catholics have joined hands to aid the dis-
tressed Jews of Central Europe, numbering
about a third of the Jewish population of
the world. Among them conditions are re-
ported to be worse now than at any time
during the war, with millions literally fac-
ing starvation.One lady author, who supervised the
Presidential matinette hand-and-eggs for
seventeen years, presents to a more or less
interested public her version of what was
said and eaten in the White House during
her regime.Samuel Hopkins Adams wrote "Revelry,"
and his publishers seek to spread the news
that here is the low-down on President
Harding's administration, including the oil
scandal. As the Fall-Doheny trial has just
begun, it is step forward when the Jews of Central Europe
learn that not all Christians are their
enemies.The significance of the movement lies in
its tendency toward doing away with racial
and religious prejudice, which has cursed
the world since the world was young. Even
a half-century ago such a movement would
hardly have been possible. If the World
War was a great chaser-up of old hatreds
it also has brought about a broader view-
point, and a realization that men are men,
no matter where their race or where they
happen to have been born.In the United States Protestant, Catholic
and Jew are learning to work together
for common ends and learning, too,
that their differences are less important
than their similarities. It is a step for-
ward when Protestants and Catholics join
to come to the aid of Jews on the ground
of a common humanity; it will be a further
step forward when the Jews of Central Europe
learn that not all Christians are their
enemies.All this seems to savor too much of the
"confessions" game. Only time gives a cor-
rect perspective to men and events. The
best histories are those written after the
dust has settled. However well done, a
contemporary picture is apt to be distorted
by the historical romanticist.GOING FAST
The speed of light never varies, but
scientists are differing as to what the ratio
really is. They know that it is the swif-
test thing there is and at last accounts was
going about thirty knots faster than had
been supposed. There is nothing on the
boulevard that can touch it.A movement is under way in New
York of considerable significance as a sign
of the times; the American Christian Fund
for Jewish Relief. In the committee in
charge of the movement Protestants and
Catholics have joined hands to aid the dis-
tressed Jews of Central Europe, numbering

"confessions" game. Only time gives a cor-
rect perspective to men and events. The
best histories are those written after the
dust has settled. However well done, a
contemporary picture is apt to be distorted
by the historical romanticist.It is not more uncertainty that
makes courtship thrilling. In this
day of easy divorce matrimony is
just as uncertain.Those who take by force are
"superior peoples" only when they're
an army—not when they're a gang.If twelve men can't agree about a
man's guilt, how do you expect
millions of voters to agree in a
similar case?Literate Indians doubtless grin
sourly when they see that Uncle Sam doesn't seize nat-
ural resources of the weak.Opportunity is usually pictured
as a comely young woman with
flowing hair, but we never noticed
any wildcat stock in her hands.

LITERARY INTIMACIES

L

The phalanx of the peepers is moving
to the attack again. Within the last few
weeks publishers have announced three
literary efforts, two of which purport to
expose the inner workings of Washington
and the third the under-cover carryings-on
in London.

L

One lady author, who supervised the
Presidential matinette hand-and-eggs for
seventeen years, presents to a more or less
interested public her version of what was

cepted.]

This Freedom

LOS ANGELES, Nov. 28.—[To the
Editor of The Times:] It is
disturbing, to say the least, to read
of an address by one Dr. Roman,
delivered at a convention of the
Girls' League in Monrovia, in
which he advises them to guard
and treasure their newfound "lib-
erty."

Girls as far back as I can re-
member, and that is a long way,
have been free to enjoy, to work,
to live as normal girls should
wish to. They have skated and
bicycled and danced; they have
flirted gayly, been proudly chos-
en as wives, built their nests and
had their babies.

If it mothered a girl I would
question such advice to her even
from Dr. Roman. It might mean
no self-restraint, no discipline and
even the adopting for womanhood
the stupid habits men have often,
not always, reserved for them-
selves.

Is it not a risk to impress the
uniformed mind that certain stand-
ards are old-fashioned and some-
thing to throw overboard at the
age of 18 or 18 for this "new
freedom"?

MRS. CHARLES F. GRAY.

Who Pays?

HOLLYWOOD, Nov. 25.—[To the
Editor of The Times:] Judge
and Steel Magnate, Elbert H. Gary
is reported to say, in connection
with the first few weeks that "the
consumer pays." Mr. Gary is a
great success in his own and as-
sociated enterprises, but it may
be reasonably questioned whether
the above statement shows him
to be successful as a social scien-
tist in the large. Mr. Gary is a
worker who has multiplied the
average man power of his own
capacities to man's limit. He
generally, morally entitled to be
a generous consumer of the general
product. But "the consumer pays"
is grandpa economics. For a mil-
lute's consideration should revert
to any man of Mr. Gary's in-
tellectual stature that, on the con-
trary, the worker pays for every-
thing, by reason of his productive
work.

The old idea has been freight-
ed with mischief and bitterness
and warfare, civilian and military,
for thousands of years. It has
kept the world poor. We have
accepted a small aristocracy
and wasteful "consumers" as
the obsession that they were nec-
essary as a market for the work
of our hands and brains; then
denying ourselves the unlimited
bounty of a market consisting
of people and their own legal
dependents. He is
generally, morally entitled to be
a generous consumer of the general
product. But "the consumer pays"
is grandpa economics. For a mil-
lute's consideration should revert
to any man of Mr. Gary's in-
tellectual stature that, on the con-
trary, the worker pays for every-
thing, by reason of his productive
work.

World's Oldest Game

LOS ANGELES, Nov. 15.—[To the
Editor of The Times:] It is not
the first time in the history of chess in
the ancient origin of chess in Eu-
rope, amending the interesting
story in today's Times, by the re-
cord that Calif Haroun Al Raschid,
Ommiad Sultan of the Arabian
Empire in the ninth century, sent
to Alfred the Great, in Wessex, a
set of carved ivory chessmen. Also
was a part of the education of the
Norman knights before the
conquest of England to learn to
be skillful players of chess.

ARTHUR M. MACKATE.

Mysterious Atom

An atom, if it gets sufficiently ex-
panded, may radiate electric current
and emit light. This is the Science
fiction. This discovery is one of the
European advances in physics reported
at Harvard University by Prof. P.
W. Bridgman and William D. Coolidge.

Both professors expressed
themselves as much impressed by
the great activity shown among
European scientists in all directions.
In order to study the magnetic prop-
erty of iron, single crystals of iron
have been made about one
inch long by one-half inch
thick. These crystals show no
magnetic properties. In addition
Dr. Kapitza has developed a
chain for producing the most in-
tense magnetic fields ever attained. The
field, which lasts only one sec-
ond, is produced by suddenly short circuit-
ing a dynamo. The experiment is
over before the mechanical part
which is 1000 times faster than
the dynamo. The dynamo across the
room to the place where the field is
produced.—[Indianapolis News]

HELP OR HINDRANCE

Henry E. Huntington, the capital-
ist and art lover, said at a dinner in New
York, "Does love help or hinder the
artist? There's an artist here who
has talent but who doesn't
have the same substance, a woman
and not a very attractive woman,
but she has talent."

"I spoke of this to one of my
friends and the friend said:
'Yes, it's his wife. He always
paints here because he loves her
much.'

"Then he laughed and added:
'Art for heart's sake, what?"

Of Interest to Women.

The LAST WORD

By ALMA WHITAKER

SOCKS

Socks, masculine, socks, bear heavy on my conscience. Socks have always been an oppression in my life. It doesn't matter how vicious I am in other respects, I haven't darned the socks. I am under reproach.

The thing began when I was a small girl and a misguided nun taught me nice darning. It was so good for a small girl to have duties, so it was promptly decided that I should do the stockings. I can even remember taking the responsibility on with pride in those far-off days, showing off with most superlative claims, and preening under the factory workers who were so popular about father's big toe nail, pinning the virtue on darned socks, with some results. After that the holes were not always in precisely the right place, so the holes began to grow up and socks increased. Moreover, my own and —mama's stockings were added to the burden—and when I was sent away to school, first of all didn't get on with darned stockings, but when I am not sure that it is wise to be a good darning.

Since then Destiny has handed me even-increasing difficulties. There is to be a lack of tact understanding that it is perfectly all right for mother to have a "career," and even despite the fact the household management to hired help—but to complete-

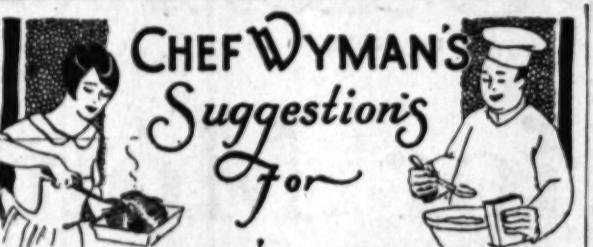

in-laws insisted upon presenting stylish silk socks for Christmas and birthday presents, which positively demanded neat darning at the end.

Lately the socks have left us without hired help for a spell. Mother achieved prodigious things in dish-washing, cooking, bed-making, sweeping, answering telephones, etc., merely by the desire of her "career" between violent goes of domesticity, but unless I get that mountain of socks darned I'm an incompetent back-slidder, a hideously impudent person. I have been darning in sixteen noble and industrious hours a day, but I haven't darned a sock. The laundry has just come home and added ten more pairs to the giddily increasing array! But there is this to be said for it, when I have darned the socks I shall ozone off the exude irrepressible superiority. I am giving the socks a final warning.

SERVICES TODAY FOR SOUTHLAND PIONEER

Services will be conducted at Pierres Brothers' funeral chapel this morning at 11 o'clock for Charles W. Finch, 71 years of age, who died yesterday at the Methodist Hospital after a brief illness. Mr. Finch was a pioneer of California. He came to the Owens River from Monroe in 1879 and for a number of years was high way and road superintendent of Riverside. He had been a resident of Los Angeles since 1910, living on Normandie avenue, and had three children, Leasy A., Mildred M. and George Finch, and a brother, George, of this city. Burial will be at Evergreen Cemetery, Riverside at 3 p.m.

TOMORROW'S MENU

Breakfast
Sliced Eggs
Poached Eggs
Hot Muffins
Milk
Lunch
Lamb Curry with Rice
Orange and Apple Salad
Hot Rolls
Maple Custard Pie
Milk
Dinner
Cream of Corn
Radishes
Roast Rib of Beef
Yorkshire Pudding
Green Peas
Cold Slaw, 1000 Island Dressing
Cherry Pie
Milk
MUFFINS
Sift three cups of sifted flour with one teaspoonful of salt, two tablespoonsfuls of sugar and six level teaspoonsfuls of baking powder; add two well-beaten eggs, two tablespoonsfuls of melted butter and a quarter cupfuls of milk; beat smooth; fill buttered muffin pans two-thirds full with the mixture, brush with melted butter and bake in a shallow pan brushed with three tablespoonsfuls of melted butter, fat and bake in a moderate oven twenty-five minutes. Eat in squares and serve with the roses.

LAMB CURRY
Sift in a saute pan half a cupful of butter, add two onions, sliced and cook until nicely browned, not burned; skin out the onion and place in the pan two peeled, cored and sliced apples and one slice tomato; add a few drops of vinegar and place with the onions. Cut two pounds of thinly sliced lamb in two-inch squares, dust with flour and add to the cherries, stir and cook five minutes, cool, pour into a pastry pan, cover with pastry and bake in a moderate oven.

(All rights to recipes reserved by A. E. Wyman.)

MAPLE CUSTARD PIE
Line a pie tin with good pastry, fill with dry beans and bake ten minutes; turn out the beans and fill with maple custard made by beating three eggs with one-third of a cupful of sugar, a few grains of salt, one teaspoonful of vanilla extract and one and three-quarter cupfuls of milk; beat for two minutes. Set the pie in a moderate oven and bake thirty minutes.

YORKSHIRE PUDDING
Sift into a bowl two cupfuls of sifted flour, sifted with two-thirds of a teaspoonful of salt and beat into it slowly with a wire egg-beater one and a third cupfuls of milk; beat smooth; melt butter and add to the beaten eggs and beat two minutes, add two-thirds of a cupful of milk and beat five minutes. Pour into a shallow pan brushed with three tablespoonsfuls of melted butter, fat and bake in a moderate oven twenty-five minutes. Eat in squares and serve with the roses.

CHERRY PIE
Remove the pits from four cupfuls of cherries, dry and place in a saucepan with half a cupful of water and a few drops of lemon juice; mix one cupful of sugar with four tablespoonfuls of flour and a few grains of salt and add to the cherries, stir and cook five minutes, cool, pour into a pastry pan, cover with pastry and bake in a moderate oven.

Snyder Banks Asserted
to Have Wed When Not
Certain of Divorce Decree

Snyder Banks, alias Logan Banks, appeared yesterday for preliminary hearing on bigamy charges before Municipal Judge Ballard because he neglected to make certain that his first wife, Mrs. Doris McGlinch Banks, had obtained a divorce, according to Attorneys Cushing and Hamilton, who are representing the defendant. Confident that she had obtained a divorce, they contend, Banks married a second time in Los Angeles a short time ago.

The first Mrs. Banks came to Los Angeles a few days ago from her arranged husband to see why the separated wife was not making arrangements to care for her 10-year-old son. Banks then told Judge Ballard. When she reached his home at 1115 East Twenty-eighth street, she found Mrs. Cushing Banks, alias Banks as with No. 2, she testified.

Bigamy charges against Banks followed. Yesterday the second Mrs. Banks appeared in court to tell her side of the story and Judge Ballard continued the case to December 1, next, and dispatched warrant officers to find her and make certain of her appearance at that

Carl Wescott
Freed of One
Death Charge

A companion charged murderer Carl Wescott, accused of having shot to death Charles G. Wescott, his father, yesterday was dismissed by Municipal Judge Ballard on motion of Dep. Dist.-Atty. Hechler. The dismissal was asked at the county grand jury on the same charge of patricide. He had been indicted by the county grand jury on the same charge of patricide. He had been held in the County Jail awaiting trial.

Young Wescott has been held since the morning of October 18, last, when he surrendered himself after reading in morning papers that he had been accused of the fatal shooting. The sister Wescott was shot the previous night, and before death declared his son had shot him when he answered the doorbell at his home, 908 Coburg.

The son, who lived at Venice with his wife and family, had quarreled often with his father, according to prosecution authorities, over settling the older's estate. The slain man came to Los Angeles from the Middle West but a short time before his murder.

MRS. HOWARD-MILLANE
WILL OFFER CONCERT

Patrons of the Sunday evening concerts sponsored by the Fine Arts Club at the Ambassador Theater during the winter season will be interested in the program for December 12. It is to be given by Florence Howard-Millane, local singer and composer, and will consist of her own compositions. They not only will be sure, but most of the numbers also will be interpreted by dancer Assisting Mrs. Millane will be Wesley Daniels, called America's youngest baritone, who will sing "Oh, California Sunshine," one of Mrs. Millane's newest songs, with words of Violet de Bea, inspired by a trip to the Los Angeles Steamship Company's liner City of Los Angeles. There also will be Elenita Sepulveda singing "The Rainbow Song" and the interpretive dancer will be Florelle Moulou, Mary Louise Larkin, Jack Borden, Frances Dexter, the old Pavonis, and Jessie and Tony Crouch.

ATCH SWAYS SUIT

Scores in Contest With
Nelson Story Estate

After the late Nelson Story, millionaire, won the first suit in the story and letters of administration by Superior Court, his son, Walter P. Story, whose father was the property of his brother, in Montana.

Nelson Story, a picturesque figure of the old West, died in Los Angeles in March, last. Mrs. Hogan, a resident of California, was living told her that he never would return to Montana. The pioneer, who is credited with being the first man to cross the mountains, having left from Texas to Montana, invested heavily in Los Angeles real estate in the late eighties, adding greatly to the value of his already large fortune.

CREDITOR PRESENT

At yesterday's hearing, Gen. Story was represented by Attorneys Lewis F. Boardman, Attorney F. J. Henry and Romaine Hogan acted for the daughter, Miss Annabel Smith, a creditor, was represented by Henry Boardman, the firm of Hunsaker & Bratt & Coopers.

According to Attorney Daniel Murphy, their interest in the case mainly was to establish the fact that there was no estate, as an administrator appointed in order that they might sue for certain funds said to be due his clients.

SOCIETY

RETURN FROM WEDDING TOUR

Couple at Home to Friends in Glendale

Mr. and Mrs. Juanita Neal Levy are being issued by Mrs. Bowman Hollins, Mrs. Edgerton Tolhurst (Jane Hollins and Mrs. James Hickman Hollins, Waynesboro, Pa.) for an evening at the home of the former, 1945 Observatory Place, from 4 to 6 p.m. The bride will be given in honor of her daughter, Mrs. Jefferson (Rosemary Hollins), who recently from the East to her home here.

Henry J. Rich and his mother, Ellen Matheway, left the 15th of the East, where they were in Mr. Rich in Cleveland, O. The general arrangement they are planning extended trip to the Hawaiian Islands before returning to their home on New Hampshire.

Last Message to Husband Told About Trip

Los Angeles Police Join in Search for Woman

Police authorities of the entire Pacific Coast have been enlisted by Francis X. Cody of Long Island, N. Y., in a search for his wife, Gweneth M. H. E. a 27-year-old blonde. Cody, 27 years of age, mysteriously missing since October 1, last. After searching in vain in Vancouver, Seattle and San Francisco, Cody arrived in Los Angeles yesterday to make a strenuous effort in a missing person's case. He frankly admits may prove futile.

Mrs. Cody, formerly a buyer for several New York women's shops and department stores in Paris, was last seen by her husband in June, when he left Tampa, Fla., with his wife, who had been living temporarily in a rooming house in New York, to return on a business trip to Gotham. Cody states he is connected with a French and American trading company with headquarters in Paris.

Mrs. Cody left Tampa on September 18, last, and on October 1 her husband received a telegram, supposedly from his wife, Dallas, Tex., which read:

"Motoring north with Mrs. Dow of Vancouver. Send \$100."

Gweneth M. H. E. Cody

Property owners yesterday asked the City Council to order the paving of Thirtieth street from Sixth avenue to Eighth avenue.

PAVING PETITIONED

Property owners yesterday asked the City Council to order the paving of Thirtieth street from Sixth avenue to Eighth avenue.

Cody dispatched the funds and never again heard from his wife. Then he started search, first visiting Vancouver, where the police located many Mrs. Dow, but never the right one.

Two years ago, Mr. and Mrs. Cody met a Mrs. Wissman in New York and a close friendship sprang up between the two. Between them, Mrs. Wissman conducted a hotel in Los Angeles and returned here, Cody believes he may get some trace of his wife through them if located.

Meeting his wife to Detective Lieutenant Allen of the police force, Cody said she is a well-educated woman of English descent. She speaks French and Spanish fluently. She is about 5 feet 6 inches tall, weight 135 pounds; is of fair complexion, and has long light brown hair.

LIVING BEYOND INCOME

Henry Ford, one of the original founders of the automobile business, now declares "the thing has gone too far." It never until lately been supposed that living beyond income is healthy.

BUSINESS SPIRIT PRAISED

Globe Tourist Says America as He Finds It Not According to Old World Idea

"Los Angeles and Paris are the two greatest cities in the world and I like Los Angeles better because of Hollywood and the cinema," remarked L. M. Printen Geerlings, world traveler and staff correspondent of the Dutch East Indian and Netherland newspaper, who for the present is sojourning in Hollywood.

Mr. Geerlings started on his world trip from Semarang, Java, and in the last few months has toured, studied and written about Belgium, France, Germany, China, Japan, Hawaii and now California.

When asked what he thought of the United States Mr. Geerlings replied:

"If all the rest of your country is like the California that I have seen, it certainly is a wonderful place. When I get back to Amsterdam I am going to tell the little Dutch children that they must come and see America."

You Americans certainly know how to work. Do you know what I like best about America? It is that the people have a hard word. You work with a smile, a joke, and that makes America fine to me.

In other countries the people regard American business as an affair of money, of corruption and graft, but now that I have lived among you, I see it all as a wonderful drama full of large achievements."

Mr. Geerlings spent several days at the famous Hollywood studios producing studies in Hollywood and met many of the stars of the film firmament. Not much time, however, is left for the visitor from the South Seas in America, and after his month's stay over in New York he will be off for Semarang, Java, and home.

PAVING PETITIONED

Property owners yesterday asked the City Council to order the paving of Thirtieth street from Sixth avenue to Eighth avenue.

Cody dispatched the funds and never again heard from his wife. Then he started search, first visiting Vancouver, where the police located many Mrs. Dow, but never the right one.

PRACTICAL RECIPES
for Pictures and All
Who Appreciate Good
Cooking

post this every six hours for two days. Drain off the water, place the citron in a preserving kettle, add one level teaspoonful of sugar for each three pounds of fruit, six citrus leaves and enough cold water to cover. Bring to a boil and boil for forty-five minutes. Drain and rinse in cold water, place in kettle and pour over a syrup made with half a pound of sugar to each two quarts of water. After forty-five minutes, add a pound of sugar and boil for another fifteen minutes. Return the fruit to the syrup and boil seven minutes. Repeat this process until the dried fruit is on trays, fill the bottom with sugar and set in the sun till thoroughly dried. Fill the fruit every few days with more sugar.

ORIGATE PASTE

C. N. Covina: Think you can procure the origate paste confection and eat at any of the large candy places.

CAULIFLOWER FOLONAISE

Remove leaves from cauliflower, cut off stalk and cook three minutes (head down) in cold water to cover. Cool (head up) twenty-five minutes or until tender in one quart boiling water, which has been added one pint milk and one-half teaspoonful salt. Drain, place on a hot serving dish, sprinkle with the yolks of two hard-boiled eggs, forced through a puree mill, and mix with one tablespoonful mayonnaise, one-third cupful coarse bread crumbs and cooked in butter until delicately browned.

POTATOES—POMPEIAN

Scrub five large potatoes and bake until soft. Melt half a cupful of butter in a chafing dish; when hot

ORANGE SALAD

Take three navel oranges and divide carefully into sections, removing all the membrane, without breaking the pieces. Cover with a dressing made of one-half cupful of olive oil, one cupful of sugar and a teaspoonful each of tarragon leaves and chervil, chopped very fine.

CIDER SAUCE

Cream one-fourth cupful of butter and add gradually, beating constantly one and one-half cupfuls brown sugar, one-half cupful of cider; then add the yolks of two eggs, well beaten, and one-half cupful of milk. Cook over hot water, stirring constantly until mixture thickens. Pour mixture gradually, while beating constantly on whites of two eggs beaten until stiff.

CHOCOLATE WALNUT CAKE

One-third cupful butter, one cupful brown sugar, two eggs, one-half cupful milk, two cupfuls bread flour, one-half cupful white chocolate, three eggs, four square pounds of walnuts, two-thirds cupful brown sugar, one cupful milk, two eggs, one cupful and one-half cupfuls chopped walnut meat, one-half cupful cream in small pieces, two teaspoonfuls vanilla.

Cream butter and add gradually, while beating constantly, one cupful sugar; then add yolks two eggs, well beaten, one-half cupful milk, flour, mixed and sifted with the sugar, and whites three eggs, beaten until stiff. Melt chocolate and add two-thirds cupful sugar, one cupful milk and one egg, slightly beaten. Cook in double boiler, stirring constantly until mixture is smooth. Cool and add to first mixture; then add nuts, cream, chocolate and vanilla. Turn into two round cake pans and bake in moderate oven thirty-five minutes. Remove from pans and cover with white or chocolate frosting.

GLENDALE PUNCH

Two cupfuls raspberry syrup, two and one-half cupfuls of sugar, one pint of water, one pint of ginger ale, one quart of carbonated water, ice.

Mix the sugar with the lemon juice and allow it to stand for half an hour on ice. Strain the water, the water and the raspberry syrup; mix well and pour over a square of ice in the punch bowl. At serving time add the ginger ale and the carbonated water. Serve immediately.

CRANBERRY PUNCH

Three cupfuls cranberries, one-quarter cupful raisins, two cupfuls boiling water, one and one-half cupful sugar, three tablespoonfuls lemon juice on juice.

Remove seeds from raisins, cover with boiling water and let cook one-half hour. Drain, remove liquid and add cranberries. Cook eight minutes and force through a sieve. Add sugar and lemon juice, and freeze to a mush, using equal parts of finely crushed ice and water.

Serve in punch glasses and garnish top of each with three or four cooked raisins.

PEAR SALAD

Select medium-sized pears, allowing one for each person, slice and pare.

Cut in thin slices across and across original shapes. Place on lettuce leaves, and serve with French dressing.

CREAMY HARD SAUCE

One-half cupful butter, one-half cupful boiling water, one tablespoonful vanilla extract, two tablespoonfuls lemon juice, one-eighth teaspoonful sugar, three cupfuls sifted powdered sugar.

Cream the butter, add the water, extract and juice, and beat for two minutes. Add the sugar and salt and beat until creamy. Shape into a smooth ball, wrap in waxed paper in small cubes or slices and serve on the hot pudding.

CLUBHOUSE SANDWICH

Rub to a paste one tablespoonful of butter and two tablespoonfuls of soft clubhouse cheese, a tablespoonful of mayonnaise, a tablespoonful of anchovy paste. Spread the above mixture on thin slices of toasted bread. Put slices together and cut triangular.

JAM DAINTIES

Cream a scant cupful of butter with a handfull cupful of brown sugar, add two well-beaten eggs, a teaspoonful of cinnamon, half a teaspoonful of cloves, one cupful of chopped almonds, two ounces of unsweetened chocolate, one cupful of half cupful of milk and a heaping teaspoonful of baking powder well mixed with enough flour to make a cookie dough. Roll out about an inch thick, cut in diamond shapes, cut in rounds and bake in a moderate oven; when done cover half of the "dainties" with white icing and spread the remaining with any good jam, either in pairs and decorate each with shredded coconut and a jelly diamond.

Loew Improves

After Attack

of Pneumonia

Marcus Loew, motion-picture producer and theater-owner, is reportedly improving from what is said to be a relapse from a severe attack of pneumonia contracted a short while ago in New York. Mr. Loew, who is 74 years of age, came to California to recuperate a few days ago, but shortly after his arrival was stricken with another severe attack of pneumonia coupled with a form of pleurisy.

The film magnate, who is staying at the Ambassador, has been gaining strength from day to day and was able to sit up for a short while yesterday morning.

More than one-fourth of the women employed in the cotton mills in the United States are under 20 years of age.

DATE CHANGED FOR
WILLEBRANDT FETE

The luncheon in honor of Dep. U. S. Atty.-Gen. Mabel Willebrandt, given by the Republican Women's Federation of California, Southern

division, has been set for next Monday at the Alexandria, instead of next Tuesday, as first was planned. The date has been advanced because Mrs. Willebrandt must be in San Francisco to December 7 for the hearing of Ned Green, former prohibition official.

PROGRESS CARNIVAL
DEFERRED FOR WEEK

The Exposition of Progress and Carnival of Light scheduled to be given on West Adams street at La Brea avenue, will be conducted De-

ember 7-11. It has erroneously been stated that the celebration, postponed from the original date, will be held on December 4.

Ann Arbor, Michigan's only women's winter carnival, recently named death, by invading the heavily wooded forest and arresting three alleged game-law violators.

THE trend of modern retail business is constantly toward improvement in distributing facilities—toward a lessening of the excessive spread between producer and consumer that has engaged the earnest attention of the ablest economists for many years.

In line with this trend to reduce distributing costs—setting the pace on the Pacific Coast—the recent amalgamation of the interests and operations of Safeway Stores and the Skaggs Safeway Stores was perfected.

The purchasing economies and advantages which this union of interests has given us were touched upon in our last advertisement.

The operating economies effected include enormous reductions in buying, accounting and administration costs due to the elimination of duplication of effort and simplification of system through scientifically centralized control. It is just as easy, for instance, to enter the purchase

Will you accept this beautiful roadster for two weeks of your spare time?

\$1475 Auburn Sport Roadster Delivered to Your Door on Christmas Morning—Costs You Nothing!

Truly an amazing offer! For only TWO WEEKS of your spare hours, the Los Angeles Times will pay you the equivalent of over \$700 per week! --- by presenting you with a smart-looking, new, high-powered car you'll be proud to own. Here is the offer in a nutshell: To the man or woman over 16 years of age, who will turn in the largest total sum of money in NEW Los Angeles Times subscriptions during the two weeks ending December 11, at 9 p. m., will be given this dandy \$1475 Auburn Sport Roadster free of all cost. Imagine such a magnificent prize for so little effort! It's true! All you are asked to do is get in touch with your business and social friends and acquaintances, and secure their subscription payments to the Los Angeles Times, for any period from three months to three years. Roll up the largest total---and this roadster is YOURS! Match your powers of persuasion---your skill in salesmanship---your ambition to own an automobile---against this opportunity of a lifetime. It requires only a short time, and your spare moments are enough. Don't lose a single minute in getting started. Hurry and send in the blank below---get in touch with everyone you know, and if they are not Times readers, get their subscriptions. YOU might as well be the one to claim this snappy roadster on Christmas morning. Address

LOS ANGELES TIMES CAMPAIGN DEPT.

First and Broadway - - - - - Los Angeles, Cal.
Telephone METropolitan 0700

If you wish additional information, call, write or phone at once to the Los Angeles Times Campaign Department. Office located on second floor of Times Building. Open from 8:00 a.m. to 8:30 p.m.

ACT QUICKLY!

This Offer Open For
Two Weeks Only.
Closes December 11

Any man or woman over 16 years of age, excepting Times employees, may try for the beautiful \$1475 Auburn Sport Roadster to be given away. Make your start this very day. There is no time to lose, as the period of this offer positively will not be extended. Even though you are otherwise busy, you can win this car by spare time effort. It costs nothing whatever to try---and your chances of winning are every bit as good as another's. How else could you be so well remunerated? Where could you earn as much in so little time? Here is without question the most astounding offer of its kind ever made by a local newspaper. And IT'S YOUR OPPORTUNITY! DON'T LET IT GET AWAY FROM YOU!

What to Do:

Send in the blank below, with your name and address written plainly. It will bring you by return mail full details to help you win. If you prefer, bring this blank in person to the Campaign Office of the Los Angeles Times. Then telephone or call on all your acquaintances. Ask if they are taking The Times. You can induce many of them to become regular subscribers. That's all there is to it. Easy, isn't it? Of course, it is, and you'll find it loads of fun, too. Remember, an early start is important. Cut out and send this blank RIGHT NOW!

FEARS ALIMONY AILMENT FATAL

Husband Declares Wife and Her Order for \$150 a Month Are Killing Him by Inches and That She and Her Attorney Are Driving Him Crazy

"My wife is killing me by inches, by slow torture," protested Edward A. Campbell, once a prosperous automobile dealer, in Judge Summerfield's court yesterday. "I just can't go on."

Campbell's principal difficulty, his testimony revealed, is that he is required to pay Mrs. Helen June Campbell \$150 a month, whereas his income is only \$65 a month.

"You seem to have been able to buy a \$2000 Mexican divorce," remarked Mrs. Campbell's attorney.

BRASHEAR GOES TO HEARING

H. R. Brashear, traffic manager of the Chamber of Commerce, left here last night for Washington, D. C., to present the chamber's case in a re-argument before the Interstate Commerce Commission, of class rates on freight between California and Arizona.

The case, which is assigned for De-

merfield decline to alter the all-money rates.

"Well, he believes everything Mrs. Campbell tells him, and the two of them are driving me crazy," Campbell said.

SIGNED BY BACHMANN
Harry Walker, the character actor who recently arrived from New York, has been signed by J. O. Bachmann for one of the principal roles in his latest feature entitled "The Invisible Government."

"I haven't paid for it yet and probably never will for it's no good," explained Campbell. "It's the likes of you."

"Here, you can't call lawyers names in this court," put in Judge Summerfield.

"Well, he believes everything Mrs. Campbell tells him, and the two of them are driving me crazy," Campbell replied.

A witness left the witness stand, declaring himself too "wrought up" to testify further. After spending a few moments in the corner "composing himself," he returned to hear Judge Sum-

IT'S WOMAN WHO PAYS--BARBER

Things Looked Low in Tensional Circles What With Safety Razors and Such Until the Girls Sought Emancipation from Long Hair and Now Bobbers Wax Wealthy

Was a great day for the barbers when the women bobbed their hair! News dispatches from San Francisco state that barbers are growing rich and a cursory investigation indicates that the same is true in Los Angeles.

Things had come a sorry pass with the barbers, that when the new paper hair-cutting combs for the ultimate consumer, antitipping crusades and such like and the bobbing idea bobbed up just in time. Of course, the day was a ray of hope for the barber wealth per capita to ascertain the number of women in Los Angeles and that meant picketing the 10-cent stores for a week at last. The barbers didn't have time to do that so he assumed that there are at least 300,000 of them.

The minimum price of a bob is 80 cents. Multiply a half-dollar by 300,000 and figuring that a woman has a monthly income of \$150,000 a month income for the barbers. Now, multiply that by twelve and, if one multiplication isn't wrong—which it probably is—the result is \$1,800,000. But that isn't all! No woman would think of tipping the barber less than a quarter, so there is \$425,000 more. Add this to \$1,700,000 and you get the stupendous sum of \$2,225,000.

Now, if you are really curious, all you need to do is to determine how many barbers there are in Los Angeles and do a little problem in division. It's the woman who pays and pays and pays!

WILLS have been made for at least 4000 years—and they will continue to be made as long as there is human life on this planet.

WILLS have been made for at least 4000 years—and they will continue to be made as long as there is human life on this planet.

Wills can save a lot of trouble and expense—or they can cause it. A trouble-proof Will, and one that is fortified against successful attack, can be drawn by any competent lawyer.

To neglect to draw a Will is a gross injustice against one's family. No thoughtful, considerate man will fail to perform this vital duty.

And many men further protect their families by naming Title Insurance and Trust Company as Executor and Trustee under their Wills.

MILLIONS PAID IN TAXES HERE

Thousands Participating Semiannual Rush

Hurry-up Business Due Continue All Week

Ladies Become Delinquent on December 6

county Tax Collector Welch and 200 assistants settled on Tuesday to the agreeable task of collecting \$30,000,000 in taxes and next Monday evening at 6 o'clock.

The semiannual tax rush was on all day long the curtains of Hall of Justice were thronged with people seeking the proper witnesses to which to render their oaths to Caesar. For at 8 o'clock, November 6, next, first-half taxes will be due and the liability of 15 per cent.

The total of taxes for the year has not been added up yet, but it is estimated yesterday at something more than \$60,000,000. An all day service taxes and half of real-estate levies are due for payment on the first-half bills, next \$60,000,000 ought to be collected by the close of business Monday.

There are always some delays, and up to yesterday morning \$14,300,713 had been paid in. It looks like about \$30,000,000 for Collected. Weighty consequences last year at the time \$12,600 had been paid in, against tax charge of \$85,914,426.19.

"I am amazed by the waste money on the part of taxpayers this season," remarked Collected which yesterday, as he gazed out the milling throng in his office, was standing in line, waiting just as well as mail their checks money orders in. They are like it. At the same time, the tax collector's office is thousands every year."

Each year the proportion of tax remittances increases slightly, however, and Collected Welch looks forward to a day when the annual

and will be a thing of the past.

Japan Revenue From Tobacco Sixty Million

The Japanese government derived

from more than \$60,000,000

annually from its tobacco monopoly

according to Tetsuo Suzuki of the

Ministry of the division of finance, who arrived at the Ambassador's residence yesterday. Suzuki is on his

home to Japan after six months

studying the system of

monopolies existing in Japan.

The cigarette is the principal

in which tobacco is used

and in some of the larger

smokers use pipes. A consider

able quantity of our tobacco is

imported at home but we also purchase

about \$5,000,000 annually.

The Japanese do not yet require

any tobacco to be taxed to any

extent. Some of

women of the lower classes are

smokers but it isn't regarded as

proper, though to do

so is not uncommon. From the

time of the war there has been

under discussion of making

the nation's principal

intoxicant a government

monopoly but no steps in this

direction have been taken. There

are more than 10,000

manufacturers of sake in Japan

and the government of the

country would necessitate the

government purchasing all these

plants.

C. C. Young, Governor-elect of California; Burton Fitts, Lieutenant-Governor-elect, and Mayor Cryer have

invited to appear at the

"Wage and Screen" ball being

under the direction of Fanchon

Marie at the Shrine Auditorium

Friday night.

Many stage and screen celeb

rites have also consented to appear

that night as honor guests. Am

ongers are Jack Dempsey, Ray

o'Farrell, Belle Bennett, Irene

Richards, Eddie Mann, Eddie

Myers, Lucy, May Gurney, G

retta, Tellegen, Theda Bara, N

B. Walthall, Theda Bara, J

ohn Barrymore, Clara Bow,

Naomi, Marion, Olive St. John,

Doner, Keenan, Harlan, M

oret, Hedda Hopper, Madge

Tucker, Lawrence Grey and others.

The ball will be divided to

the benefit of the New State

for the Aged, which is the

number of the Community Chest.

The ball will be given to meet

the losses incurred in the last year.

OLD CALIFORNIA DAYS RECALLED

Piggy Wiggly Girls Revive Forgotten Airs

Composer Registers Hit in Informal Concert

Programs of Week Comprise Many Novelties

BY MAE PRICE BROOKS

The sunshine brought many out to enjoy it yesterday, numbers finding their way to the tower studio to enjoy the noon program.

The Piggy Wiggly Girls gave several lovely numbers, among them being their own arrangement of "La Hamaca." This was one of the songs of early California which was preserved by Charles Lummis in a book of these old melodies which he has compiled. Other selections included Gide's "Country Dance," "Songe D'Amour," by Ascher; Beethoven's "Minuet in G" and an old popular song, "The Homecoming and the See."

J. Walter Leopold drifted in and, in answer to many requests, gave several of his own compositions. His informal visits give much pleasure to those who listen in.

NOTES AT THEATERS

James C. North, tenor, who has been so faithful in his Monday noon broadcast, is now appearing at West Coast theaters throughout the Southwest with splendid success. The clear ringing quality of his voice is particularly adapted to ballads and his singing is always pleasant.

The Woman's Press Club of Southern California is putting on a program this evening. It promises to be a most interesting hour. A novelty on the later period tonight will be a saxophone band of eight under the direction of Ben Vereeken.

The auction bridge game will be broadcast this afternoon at 2:30 o'clock.

Tomorrow evening the Pokrovsky Institute of Music will broadcast another program. Their concert of several weeks ago is still remembered as being of exceptional merit.

Thursday evening brings the delightful music of the Zelener Quartet, always eagerly anticipated. Also Ruth and George and John Martin at the Guirlande will participate in the program.

GOLF CLUBS COMING

Friday evening the Boys' Glee Club of Franklin High School, under the direction of Mrs. Mercedes Miller, and the Girls' Glee Club, under the direction of Eugenie Lever, will sing at the Tower. There will be solo performers with the glee clubs and this should be an entertaining hour. There will also be a fashion talk by Peggy Hamilton Friday evening.

The usual popular program of Saturday evening will complete a rounded week.

Burr McIntosh will be at the tower studio on Sunday evenings hereafter, this being a more convenient time than Friday evenings. His cheerful philosophy will be sent out at about 8:15 each Sunday evening.

Radio hearers were given a rare treat Sunday evening in the visit of the champion, Miss Anna Beaman, to KHJ. She spoke informally on the reorganization of methods of educating children, stressing the fact that we do not realize how great a thing is the training of a small child.

Motorist Held to Answer for Manslaughter

Joe Cherelli was held to answer in Municipal Judge Blak's court yesterday on charges of manslaughter and driving while intoxicated. It was Judge Blak's first appearance in Criminal Court since the conclusion of the McPherson hearing.

Cherelli was accused of striking John K. Shireman, Sr., at Bauson and Atlantic Club, Hollywood, on the 29th. Shireman, it was disclosed, was carried 150 feet on the auto fender and later died of his injuries. Ball was set at \$2500.

Bridge Game This Afternoon at KHJ

K-H-J The Times

AND OTHER LOCAL STATIONS

ETHYL

is coming tomorrow

ETHYL will arrive tomorrow. And she is going to take you for a *real* ride in *your own* car.

She is going to take you in high up hills that now call for second. She is going to stop that "bucking" in traffic and let you jam the accelerator to the floor boards without the motor's protest. She is going to give your gears a rest. She is going to stop *all* "knocking" under *all* driving conditions—and save you in repair bills besides.

Big claims? Yes. But ETHYL makes good on each one. What is more—ETHYL makes this further claim:

*Ethyl ends all carbon trouble
and turns carbon into power.*

**Use up the gas now in your tank before tomorrow
and watch for tomorrow morning's papers.**
